Win Match Cheat

ΧΛΔΟΧΠΟΔ

(Pause game to choose to win any match.)

AIR COMBAT

INFINITE PLANES

If you complete the game on the Normal difficulty setting, when you play again you'll be rewarded with an infinite stash of every aeroplane.

LOADING GAME CHEATS

Just before the game switches to the loading screen, press and hold R1 and O. The loading screen will now change to lots of jumping CDs. Whilst in this screen, press any of the following button combinations for the desired effect...

BONUS GAME

Whilst on the jumping CD screen, press $\uparrow \leftarrow \rightarrow \Rightarrow$. If this has been done correctly, a small green monster will appear in the bottom left-hand corner of the screen. Now the next time the game loads, you'll be able to play a very strange bonus game. Allegedly, if you complete

this bonus game, you can employ wingmen in the actual game for nowt.

ALTERNATIVE PAINT JOBS

On the jumping CD screen, press $\uparrow \downarrow \leftarrow \rightarrow \uparrow \downarrow \leftarrow \rightarrow$, R1. If the code has worked, a small jet plane will appear in the bottom left-hand corner of the screen. You'll now be able to alter the colour of your plane.

COLOUR OF WINGMEN

On the jumping CD screen, press Start ten times followed by R1. You will now have the added bonus of seeing your wingmen fly around in jazzed-up planes. Pointless but fun.

DIFFERENT PAINT IN TWO-PLAYER

You can also alter the colour of your planes in two-player mode (if you're both petty). Input the following code on the jumping CD screen: $\leftarrow \Rightarrow \leftarrow \Rightarrow \downarrow \uparrow \downarrow \uparrow \bigcirc$
 $\bigcirc \wedge \wedge \wedge$.

AIR COMBAT 2

MODEL DISPLAY

By completing the game with a ranking of General, you'll open up this new feature on the options screen. Basically, it allows you to view every single aircraft in the game by bringing up a picture and letting you zoom in and rotate it around. It even tells you if it is an enemy or allied craft -- which makes it easier for you to tell if you've found every single flyable plane in the game (there are 24 in total!).

SECRET MISSIONS

Upon accessing the Free Mission mode, if you play through the familiar missions again and complete them all on Easy, Normal and Hard modes, you'll be rewarded by two bonus missions that aren't in the normal game. These two can

only be accessed in the Free Mission mode, so enjoy!

MUSIC TEST

Complete the game with a ranking of lieutenant and a Music Player mode will appear on the options screen. All 28 music tracks can now be played: use the shoulder buttons to select the track you want and press the \bigcirc button to play it.

LOCK REPLAY VIEW

Hold down the map button during a replay to freeze the camera in its current position.

ALTERNATE MISSION MAP VIEW

Highlight the Mission option on the mission select screen and press Select. Three new viewing angles can now be chosen.

AZURE DREAMS

EASY MONEY

First, build a race track, then enter it and bet \$1,000 on the horse #3 & #4 combination (if the odds aren't high enough, leave and return.) When the race starts, speed up and get in horse #2's way. By blocking it, horses #3 and #4 are bound to finish first and second, so you'll win the bet. Repeat as needed.

HEALTH RESTORE

Stand in a corner and hold X + ○ to restore your health. Beware though: you can be attacked while doing this.

BATTLE ARENA TOSHINDEN

PLAY AS GAIA

Input the following code very quickly on the title screen, when the text to highlight the option flows-in from either side of the screen: ↓ ↗ ⇐ □ (weak slash - if you have changed your button configuration, press the corresponding button). You should hear a voice say "Fight!". Now go to the character select screen and highlight Eiji, then press ↑ whilst you select him. Eiji's portrait will turn blank and the name "Gaia" will appear.

PLAY AS SHO

Input the Play As Gaia code, then let the game run into the demo mode. Whilst the demo is running, press Start on controller 2 to bring up the title screen again. Now press the following code very quickly on controller 2, whilst the text to highlight the options flows-in from either side of the screen: ⇐ ⇐ ⇐ ⇐ ⇐ ⇐ □ (weak slash). You should hear a voice say "Fight!" Now go to the character select screen and highlight Kayin, then press ↓ as you select him. Kayin's portrait will turn blank and the name "Sho" will appear.

INSTANT SPECIAL MOVES

After entering the codes to play as Gaia and Sho, wait until the game switches to demo mode and the title screen comes

up again. As the text to highlight the options flows in from either side of the screen, press \triangle and \times (weak kick) on controller 1. You'll hear a voice say "Fantastic!" and the option text will turn white. Go to options and change your control type so that the L1, L2, R1, and R2 buttons are used for special moves. If you press all four buttons and Select during a fight, you'll do your character's desperation move. Note that this cheat only works in Easy & Very Easy modes.

CONFIG SELECT

After inputting the Instant Special Moves cheat, wait for the demo to start and then press Start. As the text to highlight the options flows in from either side of the screen, press the following combination very quickly on controller 2: $\triangle \rightarrow \triangle \rightarrow \triangle \rightarrow \triangle$ (weak slash). If done correctly, you'll hear a voice say "Fantastic!" and the option text will turn yellow. This cheat will allow you to use any control configuration on any difficulty setting.

EASY SELECT URANUS & MASTER

On the title screen, as the menu items fly in from the left, quickly press (on controller 1): R1, L2, \times , L1, R2, \circ . You'll hear a jingle if it's worked.

Now go to the character select screen and highlight the random box. By timing your button press, you'll be able to select Uranus or Master.

EASY SELECT SHO & VERMILION

Once you've activated the Uranus & Master code, wait until the menu items fly in from the left again, and quickly press (this time on controller 2): \circ , R2, L1, \times , L2, R1 (the reverse of the previous code). You'll hear a jingle if it's worked. Now go to the character select screen and highlight the random box. By timing your button press, you'll be able to select Sho or Vermillion.

around Gaia and mould to his body: you now have Armoured Gaia! Hits only cause half damage to him, but he is slow-moving. He also has a cool new desperation move.

CANDID CAMERA!

On the options screen set all R1, R2, L1 and L2 to 'NOT USED' and then set the camera option to 'CONTROL'. Cycle through the R1, R2, L1, L2 options again until all of them are set to 'CAMERA'. You can now rotate the camera by pressing R1, R2, L1 and L2 when paused or fighting.

You can turn off the gauges by pausing the game and pressing $\square + \triangle + \bigcirc + \times$ + Select on controller 1. The options menu will disappear. Press them again and the energy and overdrive gauges go. Press them again to get back to normal or Start to play without them! When you have no gauges selected, you can control the zooming and vertical scrolling with R1, R2, L1 and L2.

BATTLE ARENA TOSHINDEN 3

RANDOM SELECT

Hold L1 + L2 + R1 + R2 at the character select screen. Press \square , \triangle , \times , or \bigcirc while the selection box is moving.

REMOVE DISPLAY

Pause a fight. Hold $\bigcirc + \triangle + \square + \times$ and press Select. This removes the continue, options, and reset selections. While continuing to hold all four buttons, press Select again. This removes the Life and Over Drive bars. To return the display to normal, repeat the code while pressing

Select once.

EXTRA LIVES

If you're running out of lives, simply replay the Training level and collect the letters to spell FLIK for an extra life. By repeating this, you can accumulate as many lives as you want.

BUSHIDO BLADE

SECOND ENDINGS

To see the alternate endings, you must follow these rules strictly:

1. The Bushido Blade 'Code Of Honour' must be obeyed at all times.
2. You must not take any hits until you face the final boss.

Defeat the first opponent without taking a hit, no matter how slight. When you face the second opponent, hold down L1 and run to the well at the construction site. Before jumping into the well, take out your opponent's legs - this way you won't have to face them before jumping to the fifth fight. You then have to defeat the fifth opponent and the following four bosses without receiving a hit.

You'll face one of three hidden bosses: Kindati, Hongou or Black Lotus (in bandages). Defeat them (the no-hit rule doesn't matter any more, then use as many continues as necessary to defeat the final boss and reveal the hidden ending for that character.

OBTAINING KATZE

The ultimate test of your skill can be found in Slash Mode; because at the end of it lies the opportunity to control and select Katze as your character. However, you must kill all 100 opponents WITHOUT getting killed - that means no continues at all. If you die, you must exit Slash Mode, then begin again from opponent number one - argh!

Once you've completed this near-impossible task, you can choose Katze in Vs Mode and Practice Mode. Just move the selection box off the side of the screen next to Red Shadow or Kannuki. If it is done correctly, there will be no cursor or character shown. To select Katze, simply press I.

The game should freeze at this point: now put the disc back in the first PlayStation and the link-up game will load up! If the game freezes again, just keep swapping the disc to unfreeze it.

BARRET LUCKY SEVENS CHEAT

Get Barret to level 70 and equip him
with the Missing Score and Wizard
Bracelet, then give him the following
materia:

5 x HP plus (1 star)
Summon Phoenix (2 stars)
Time (2 stars)
Barrier (2 stars)
Full-Cure (2 stars)
Destruct (3 stars)

You may then equip Barret with as
much yellow materia as you wish as
this doesn't affect his hit points.
Using this combination, Barret will
get a HP score of 7777, which will
allow him to inflict 7777 damage as
a strike.

ENEMY SKILL CHOCOBUCKLE

1. You need to have the L4 Suicide
Enemy Skill.
2. Go to the Chocobo stables and
buy two Mimett greens.
3. Go to the tracks near Mideel and
wander around: eventually a Chocobo
will appear.
4. Kill off all but one of the enemies
with the Chocobo still there (you can

f

feed it any greens apart from mimetts up to this point).

5. Feed the Chocobo one of the Mimett greens and use L4 Suicide on both the enemy and the Chocobo.

6. The Chocobo will now use Chocobuckle on the person who activated the L4 Suicide.

REFILL HP

Cast Regen-All on your party, then quickly open the PlayStation lid when all opponents have been defeated. The game will be unable to load the victory screen and may glitch while the HP for each party member fills. After everyone is at full health, close the lid to resume the game.

TRIPLE MAGIC

Give all characters Reflect status, then cast any attack spell on all three of your characters. The spell will bounce three times into the enemy, each with the attack power of a full spell.

SECRET CODES

This cheat is dead tricky to activate but worth it. After the game has started and you are at the Game Setup menu, press: L1, X, X, L1, X, □, R1, X, □, R1, ○ (which should take you to the Credits screen). Then hold (for a second or two) ↻ + △ + □ to activate the secret codes.

Now start the game as normal and, as soon as it starts loading, hold L1 + R1 + ↻ + △ + X + □ + ○ for as long as it takes for the secret code menu to appear. (Top tip: use a CD case to hold down the four fire buttons.)

1. On the secret code screen, L1 and L2 alter player height up/down. The number is in inches (min = 1.5 feet; max = 12 feet!). Note: Any height greater than 7'10" cannot slam the ball.

To change all the players on the cheat list, you must use a PlayStation Multitap with all controllers plugged in.

2. D-pad ↑ and ↓ control Chameleon mode (flashing colours).

3. Start and Select on controller 1 set the outdoor court on/off.

To exit the cheat area and go to the game, press △ + X on controller 1.

2nd or 3rd in a Tournament or Special Event race, you open up the tracks for other modes, such as Test Drive, Hot Pursuit, single player and two-player match-ups.

EASY CARS AND MONEY

You must own at least one car and have enough money (\$20,000) to buy one. Once you have this, copy the *NFS Road Challenge* save game file to another memory card. While both memory cards are in the PlayStation, select the High Stakes mode (in the two-player submenu). At the beginning of the race, forfeit player 2. When you reach the in-game menu, you should now have two of the same car. Copy the saved game over player 2's memory card again and repeat. Now sell all the cars you've won.

Note: Temperamental is the best word to describe these last three cheats for *NFS Road Challenge*. They seem to vary on the car and course selected, so if it doesn't work, try again. If it still doesn't work, chances are it's the wrong combination.

DASHBOARD VIEW

Press Start to load the race after selecting the game options (track and car selection), then immediately hold $\uparrow + \Delta + \times$ before the loading screen appears. Keep the buttons held until you start the race.

SNEAKY SHORT CUTS

After the first left corner, look out for a car park on the right. Occasionally there is a white truck there which means the Drain shortcut is open. When about level

with the truck, take a sharp left through the gate in the wire fence - try to avoid the water as it will slow you down. The exit is by the railway station.

Japan - Temple

Hit the first basket on the left side of the course (look closely, there should be an IO logo on it). Just past the starting grid, the Temple Gate shortcut will now be open.

Alpine - Village

On the first lap, the gates are closed. When you reach the base of the track on the second lap, you will see a snowplough. The snowdrift to the left is blocked by some cones: knock these down and the plough will clear the drift, opening the doors for the next lap.

CHEATS

All of these cheats must be entered on the main menu screen (1-Player, Options).

TOGGLE MIRROR ON/OFF

Whilst racing in internal view mode, pause the game at any time and then press and hold △ and then tap L1 to make the rear-view mirror disappear. Press R1 to bring it back.

MIRROR MODE

Providing extra course variety, the Mirror Mode reverses all the tracks so that all the corners and writing are backwards. To access it, select 'Race Start' from the main options and then hold L1, R1, Select and Start until the race begins. If the cheat has worked you will instantly notice the difference.

ADVANCED COLOUR PALETTES

To access more colours to use on your team logo, perform the following: Select 'Customise' from the main options, then select 'Design' and choose any logo or create your own. Then select 'Paint' and then press any direction until the cursor is off of the painting area. Now press a button to move onto the colour palette and then press L1, L2, R1, R2 and Select. If done correctly, additional boxes will appear on the right labelled R, G, and B. These letters represent the amount of red, green and blue hue for the specific palette that the cursor is highlighting. Pressing ↑ and ↓ will change which hue you alter and then pressing R1 + ↑ or ↓ will alter the numeric figure in the hue box.

Now move the cursor onto the painting area and press L1, L2, R1, R2, and Select. You should now see a targeting cross-hair appear in the smaller picture area (for greater accuracy we presume). Finally, keeping the cursor inside the painting area, press L1 + R1 in conjunction with any direction to rotate your design around.

INFINITE MONEY

Follow the steps below for infinite money:

1. You must complete the Normal GP (all the classes). Wait for the credits roll until the end.
2. Save the whole game into a brand new block in Save/Load screen.
3. Go back to play the Normal GP at class 5 and you should be able to choose only one car (GNADE).
4. Choose that car and press Race Start.
5. During the countdown (3, 2, 1, Go), press Start and choose Retire. This should let you quit the race without losing a chance.

6. Finally, enter the Normal GP again, then choose Class 1. You should now have infinite money. You can buy and upgrade any car you wish.

Note: If you repeat all the steps at Extra GP, you'll get the same cheat.

RESIDENT EVIL

ROCKET LAUNCHER

To start the game with the rocket launcher plus infinite ammo, you must first complete the game in under three hours. Simple. When, or rather, if you achieve this, you'll be able to save the rocket launcher to your inventory and start the game more or less invincible.

CHANGING CLOTHES

It's true, by completing *Resident Evil* with a good ending (whereby you rescue BOTH team members), you will be awarded the Special Key which will be added to your inventory and saved in preparation for the next game. This key will then allow you to enter the previously locked door in the wardrobe and enter the hidden wardrobe closet.

In here you'll be able to access an alternative set of togs for your chosen character.

SUN CREST

Go to the Armour room on the second floor and then push the two statues over the air vents in the floor. Now press the button on the ground and the display cabinet at the far end will open, revealing the crest.

WIND CREST

Push the statue off of the balcony on the 2F Dining Room and collect the Blue Gem from the shattered remains below. Take this gem to the Tiger Statue Room on the first floor and insert it into the statue's eye socket. This will cause the statue to pivot, revealing the crest.

STAR CREST

Go to the Large Gallery on the first floor and you'll be confronted by a series of

r

paintings. Visit each painting in sequence starting from the youngest to oldest and press the buttons. The correct sequence is as follows: New-born, Infant, Lively Boy, Young Man, Middle-aged Man and Old Man. Finally, once you've pressed each button, go to the painting at the end and press the final button to obtain the crest.

MOON CREST

This is by far the hardest crest to obtain and it is found in the Attic. When you get there, you'll be confronted by an extremely large snake. You can either take evasive action and run around it to grab the crest from its nesting ground, or alternatively you can blast it to kingdom come and then grab the crest.

DOOM BOOKS & MEDALS

Take the Doom Books to the fountain which you'll come to after the underground passage, then go to you inventory, go to 'Check Item' and rotate each book around so that the pages are facing outwards. Now press X and the book will open, revealing the medals needed to drain the fountain and access the lab.

LOGGING ONTO THE COMPUTER

The log-in name is JOHN. The first password is ADA. The final password is MOLE.

DISKS & TERMINALS

Disk 1 - Inside the hidden room in Library B.

Disk 2 - Behind the huge rock in Crank Passage.

Disk 3 - On the desk at the Stairs in the laboratory.

Terminal 1 - Inside Private Room A.

Terminal 2 - Inside the Mortuary.

Terminal 3 - Inside Power Maze B

POWERING THE ELEVATOR

To activate the power to the elevator that will take you down to the final battle with Tyrant, you'll need to visit the power panel in the first room of the Power Maze. Simply go to the southwest corner of the room and restore the power to the darkened areas. Go into the last room of the Power Maze and then use the terminal at the east end of the room - the elevator will now be active.

RESIDENT EVIL 2

RANKINGS

After beating each scenario your performance will be rated by a grade from A to F. This is determined by both the time taken and the number of saves used. For a top ranking, try not to save more than ten times in each scenario. Your ranking is also affected by the use of the special infinite ammo weapons (see 'Cheats') - you won't get an A grade if using one.

CHEATS

Alternate Uniforms:

Start the first scenario on the 'Normal' difficulty setting. Head for the police station, but without picking up any items. If you do this, the two zombies in the park outside the station will vanish, and a new one will appear below the steps outside. Does he look familiar? He should do because the new zombie is none other than Brad Vicars, the STARS pilot who airlifted Chris and Kill to safety at the end of the first game.

Brad has now been transformed into a super-zombie who takes 20 hits to kill - so enter the station to grab

some more ammo. Return and kill 'Brad', then search his body to find the Special Key. Take it to the save room next to the Dark Room and use it to open the locker containing alternate uniforms. There's a cowgirl one for Claire, featuring a rapid-firing six-shooter; and two for Leon, one of which enables him to shoot one-handed.

INFINITE AMMO WEAPONS

Each infinite ammo weapon will appear in the next game after the first chest is opened, and is accessed by completing scenarios (on Normal difficulty) within time limits in the following order:

Rocket Launcher: Complete either Claire or Leon's first scenario in under 2.5 hours with an A or B ranking.

Gatling Gun: Complete either character's mission B in under 2.5 hours, with no saves, no first-aid sprays, and an A or B ranking.

Machine Gun: Complete either character's second scenario in under 3 hours with an A or B ranking.

All Three Weapons: Complete either character's second scenario in under 2.5 hours with an A or B ranking.

Rebecca Chamber Picture

If you search the desk on the left side of the STARS office, you'll be told, "It's trashed, someone must have searched it." However, you can search it repeatedly (about 50 times) until a roll of film is found. Now take this to the Dark Room to see a picture of Rebecca in a basketball uniform.

PLAY AS HUNK & TOFU

1. You need 8 free blocks on your

memory card.

2. You need to play the game four times, one for each character's two scenarios, in less than 3 hours with an A or B ranking; ie don't save more than three times (and don't use any first-aid sprays if you want an A ranking). NO special weapons may be used at this point (but you can later).

3. Save each game separately on the memory card - don't overwrite.

Play CLAIRE A as above. This will save as LEON B. Save on Memory position 1 on memory card.

Play LEON A. This will save as CLAIRE B. Save on Memory position 2.

Play LEON B, loading from Memory position 1. This will save as CLAIRE A. Save it on Memory position 3.

Play CLAIRE B, loading from Memory position 2. This will save as LEON A. Save the game on Memory position 4.

4. Now, along the way, you will have been awarded the HUNK save file. Save this on Memory position 5.

5. Now you have to play two more scenarios to finally obtain Tofu. For these two scenarios you CAN use any infinite special weapons that you've earned along the way, but you need an A or B ranking as before, with a time of less than 2.5 hours using no first-aid sprays and NO SAVES.

6. For these final two scenarios do it as follows:

Play LEON A, loading it from Memory position 4. This will save as CLAIRE B. Save this game on Memory position 6. Play CLAIRE B, loading it from Memory position 6 as above. This will save as LEON A. Save this game on Memory

r

position 7.

7. As soon as this is saved, you'll be given the TOFU save file. Save this file on Memory position 8. Phew!

MIRROR MODE

Start a race and drive up to the end of the slip-road, then turn around and race back to the starting line. As you approach the barrier at the back, it will disappear and you'll now find yourself racing in reverse on a mirrored track.

MOVE FLAG

To move the Ridge Racer flag around on the title screen, hold L1 and R1 and press the other buttons to move the flag. You can also speed up the rotation of the cars and tracks on their respective select screen by using this same technique.

DEVIL CAR

When you place first on all three standard tracks, go to the Time Trial mode and you'll be racing against two other cars as opposed to just one. The third is the 13th Racing Devil Car. To beat it, you must overtake it whilst it is stationary on the second lap and then maintain a perfect racing line throughout the remaining duration of the race. Achieve this and the Devil Car will appear to the left of the first car on the select screen.

RR REVOLUTION

EXTRA CARS

You can boost the car quota up to a staggering 12 motors by getting a perfect result in the Galaga loading game, shooting all 40 enemy craft.

SECRET OPTIONS

Don't shoot any of the ships in Galaga '88. After all the ships have gone by, there will be a small firework burst. Go to the 'Other' screen and you can now set the racing time from Normal, Morning, Evening and Night.

SPOTLIGHT CONTROL

Hold down L1 and R1 at the main screen (with Game Start and Options commands).

BUGGY MODE

To turn all the cars into small buggy-type vehicles, complete the Galaga loading game scoring a 100% hit ratio. To make this much easier, when you switch on your PlayStation on, press and hold L1 + R1 + Select + ⬇ + △. Now when you play Galaga, your ship will fire a laser beam that can wipe out

enemies with ease. Start the game as normal and you'll have all the cars at your disposal, all squashed!

TOGGLE MIRROR ON/OFF

Getting fed up of having a rear-view mirror on the screen? Well just pause the game by pressing Start, hold down Δ and press L1 to make the mirror vanish. You can press R1 to make it reappear again too!

ZOOM CAR IN/OUT

Drive using the external view mode and pause the game. Now hold down Δ and press L1 and R1 to zoom in and out on your motor.

Spinning Mode

Select a Time Trial race and when the Start command is highlighted, press and hold the accelerator and brake until the action switches to the track. You begin the race as normal, but will see the message 'Spinning Point' appear as you reach the first bend. Take your finger off the accelerator and quickly press it again to send your car into a spin. You can perform 360's, 540's and even 720's with a bit of practice. You'll get marked on technique and there are three spinning points in each track!

MIRROR MODE

You can play the tracks backwards with corners bending the opposite way and the writing reversed by following these simple instructions: Start the game as normal, drive a little way down the track and turn the car around. You will see a barrier ahead meant to stop you racing the wrong way. Line your car up and attack it! If you hit the barrier at 100kph you will go straight through and be able to race the track backwards!

SOUL BLADE

PLAY AS SOUL EDGE

Method 1 - Simply complete the game with every character. Do this and the title screen will change from the plain blue design into a montage of all the characters. Now go to the character select screen and a new skull face representing Soul Edge will have appeared.

Method 2 - We couldn't actually be bothered to try this one, but apparently if you play the game for 20 hours without switching the machine off, Soul Edge will appear in much the same way.

PLAY AS SOPHITA!

Simply complete the Edge Master Mode with Sophitia, get the eighth weapon and then the next time you return to arcade mode, she'll be there.

PLAY AS SIEGFRIED!

Complete the Edge Master Mode with Siegfried and obtain his eighth weapon. The next time you enter the arcade mode, Siegfried! will appear.

PLAY AS SOPHITA!!

You basically have to complete Edge Master Mode, getting all 80 weapons.

PLAY AS HAN MYONG

First, Soul Edge must be available as a playable character - either by completing the game in Arcade mode with all ten fighters, or by racking up 20 hours playing time. Once he is, you need to complete Arcade mode with Hwang, then Seung Mina. Han Myong should now be unlocked. (You don't have to bother with alternate endings. You can also use continues and any game settings.)

CHANGING VOICE (JAP VERSION ONLY)

When the main title screen is displayed and you hear a gruff voice say "Soul Edge", it is possible to change the voice by holding L1 and L2 and pushing a direction on the joypad. Here are some examples:

L1 + L2 + \downarrow - A husky voice will say "Soul Edge" very slowly.

L1 + L2 + \leftrightarrow (or \uparrow) - Seung Mi Na will say "Soul Edge" very quickly.

SNAZZY OUTFITS

Costume #2 - \times + \square

Costume #3 - \circ

ALTERNATE ENDINGS

All the commands must be entered when the screen returns to its full size during the end sequence.

Voldo: To get him to break Soul Edge repeatedly press \uparrow , \downarrow whilst he is rubbing the sword on his cheek.

Mitsurugi: When facing Tanegashima the rifle man, step off line by pressing \leftarrow or \rightarrow , then run forwards and use a \square slash to kill him before he reloads.

S

S

Rock: When Rock's flash back has finished and he is standing in front of Soul Edge, press Δ and he will return to America to be with Bangoo.

Taki: Pressing \times when Soul Edge flies towards her will allow Taki to capture the blades for her own use

Sophitia: As Sophitia walks off through the woods, press \Rightarrow to make her walk to pool so you can see her wash.

Siegfried: Whilst he is standing in front of Soul Edge, press Δ to get him to destroy the blade and return home to begin his penance.

Li Long: When Long falls to his knees, tapping \square and Δ rapidly will get him the strength to stand so that he can return to his wife.

Seung Mina: As her father raises his sword, press \uparrow , then \downarrow to dodge the blow. Mina will then do a runner from the family home on her wedding night.

Hwang: Press \square when Hwang reaches for Soul Edge and when he returns to Korea he will get a hero's welcome.

Cervantes: By pressing Δ when the final battle is over, Cervantes will take his own life to prevent the evil spreading.

FINAL WEAPON

When you complete Edge Master mode with a character, you won't get the last weapon in their collection - you will have to search the map for it. When the end text has finished, go back to the map screen and select 'move' from the options and you'll move to where your final weapon is located. If you fail to complete the challenge on this location, the weapon will move again: keep choosing 'move' from the options until you complete a challenge first time and the final weapon

will be yours.

CHANGE THE CAMERA VIEW

To do this, you'll need a Sony Multitap and a second controller. Plug the Multitap into any port on the PlayStation, and then plug the second controller into port two of the Multitap. Now battle away using the first controller, and then at any time during the fights, press R1 or R2 on the second controller and the camera perspective will be dramatically altered - there is even a first-person view for both characters! With some of the camera angles, you can use the directional pad to rotate the action; and by pressing \square or \times you can even zoom in and out.

RANDOM STAGE SELECT

To fight on random stages during the two-player versus mode, press and hold Select until each bout begins.

COLISEUM STAGE

If you go to the Game Option screen and set the ring size to 20M, you can fight in the secret stage.

SEUNG'S VOICE

Totally pointless, but did you know that when you boot-up the game, one out of seven times the voice that says "Namco" at the start will be Seung Mi Na's instead of the usual bloke?

CHANGE SOPHITA'S SKIRT COLOUR

Select Sophitia in Arcade mode and hold down all three attack buttons while the battle is loading in.

S

PLAY AS AKUMA ON SUPER STREET FIGHTER

Chose Vs mode and press L1 + L2 + R1 + R2 when you have highlighted Ryu.

STREET FIGHTER ALPHA**COMPUTER-CONTROLLED DAN**

Getting to fight a computer-controlled Dan is easy... and beating him is even easier. All you've got to do is win the fifth, sixth, or seventh match and hold Up + L2 + R2. Keep these buttons held down until the winning quote is displayed and then release. If this has worked, you'll go to the next fight in the sequence and just before the blows start flowing, the immortal line 'Here Comes A New Challenger' will flash up on screen before you're whisked away to Dan's hidden location.

COMPUTER-CONTROLLED AKUMA

The twisted master can be accessed via two different methods. Firstly, you can try beating the game without losing a single round and also achieving a minimum of ten super combo finishes (that's ten victories with the 'Sx' symbol displayed). Do this on any level higher than four and Akuma will stroll on and humiliate you after the final boss. Alternatively, try positioning your cursor over the character you wish to fight as on the character select screen and hold L2 + R2, then press and hold X. Hold the three buttons down until Akuma has pulverised your opponent, then fight.

SELECTING DAN

Go to the random select box on the character screen and hold L2. Now press the following code in sequence: Δ , \square , \times , \bigcirc , Δ . If the code has worked, Dan will appear. To get Dan in his other strip, simply input the code backwards so it reads: Δ , \bigcirc , \times , \square , Δ .

SELECTING AKUMA

During the character select screen, go to the random box and hold L2. Now press the following code in sequence: \Leftarrow , \Leftarrow , \Leftarrow , \Downarrow , \Downarrow , \Downarrow , \square , Δ (\Leftarrow = towards outside of character box). Akuma will appear as your character selection if the cheat has worked. To play as Akuma in his other strip, finish the code with \bigcirc , \times , instead of \square , Δ .

SELECTING M BISON

Go to the random box on the character select screen and hold L2. Now press the following code in sequence: \Leftarrow , \Leftarrow , \Downarrow , \Downarrow , \Leftarrow , \Downarrow , \Downarrow , \square , Δ (\Leftarrow = towards outside of character box). Alternatively, finish the sequence with \bigcirc , \times (instead of \square , Δ) to get the Bison in alternate colours.

DRAMATIC BATTLE

If you reckon you're the business at *Street Fighter Alpha*, this hidden game will test your might to breaking point. If you complete the game on any skill level higher than four, a new option called 'Dramatic Battle' will appear in the options menu. Plug in two controllers and have an able-bodied friend at the ready and you'll both take on Bison with Ken and Ryu. Fast, frantic and over nearly as soon as it begins, this battle sure is tough - especially seeing as both players share the same energy bar. Once you've obtained the Dramatic

Battle option, save it to your memory card for evermore.

STREET FIGHTER ALPHA 2

WHITE DHALSIM & VEGA

Select Training Mode, choose Dhalsim or Vega, then start playing. Do the teleport move: at the instant the fighter disappears, press Start, go to the menu, highlight normal mode. Start again and your fighter will appear in white.

OLD-STYLE CHUN-LI

Hold down the Select button for five seconds before pressing one of the other buttons to select her.

FIGHTING TURBO AKUMA

To meet the Super Turbo Akuma character in arcade mode, simply battle through the game on any level setting and try to get at least eight Super Combo finishes before you reach the final match against your respective boss. Now, instead of fighting them straight away, the 'Here comes a new challenger' message will appear and Akuma will warp down onto that stage.

PLAY AS TURBO AKUMA

Highlight Akuma on the character-select screen and hold Select for a few moments. Now press the following sequence on the D-pad: \downarrow , \rightarrow , \leftarrow , \downarrow , \leftarrow , \downarrow , \rightarrow , \rightarrow , and \rightarrow - if you have followed this correctly your cursor should start and finish on Akuma. Now hold Select again and then push another button to select.

Character	Points Needed
Evil Ryu	100
Evil Hokuto	200
Cycloid Gamma	300
Cycloid Beta	400
New Vega (M Bison)	600
New Garuda	800
New Gouki (Akuma)	1000

To select the 'New' Vega, Gouki or Garuda, move onto the appropriate character and hold Start (in Arcade Mode, the green gauge will vanish, and in the other modes the selection box will turn from white to yellow), then press any button. Now, these are the CPU counterparts that you have fought against before. Although similar to their 'Normal' counterpart versions, these guys inflict more, and take less damage.

When you have managed to get all seven characters, a barrel will appear; this keeps track of the missions completed. When you've performed 220 missions, the Options Plus menu will appear; in the options menu funningly

S

enough! At first, there is only one option available, but as you complete the game in various ways, more options are revealed.

VS CPU GOUKI (AKUMA)

The Options Plus menu must be enabled for this to work. Set the 'Enemy' option to 'Plus'. You'll now be able to fight against CPU Gouki and Garuda; although you'll be unable to fight Dhalsim or Sakura.

Select a game on Arcade with any difficulty and settings. Now comes the tricky part: for eight missions straight you must NOT lose a round. During the tenth round, Gouki will appear and take out Vega with his Blink Hell Murder Super Combo. You now fight Gouki, and even if you were to lose, you'll be able to continue, or even pick another character.

Unlike in previous Street Fighter epics, you can still reach Gouki with Gouki or CPU Gouki. Plus you can finish any which way you like. Whether it be a normal, super or time out.

When the ever tough CPU Gouki is no more, the following options become selectable in the 'Option Plus' menu. They only apply to the Training mode:

Training Partner

Fix (normal) or move (2-player against you). Only works when 2-player joystick plugged in port 2.

Super Combo Gauge

Three (normal) or infinite (gauge never changes).

Super Cancel Limit

On (normal) or off (cancel similar super combos)

Otedana

Off (normal) or on (opponent moves

slower through air).

FIGHT CPU GOUKI BUG!

Following the steps above, when you come to the match against Gouki, join the match on the second player side. Now, with the second player's fighter beat the crap out of player one. Then, before the 2-players vs CPU match commences, continue, pick a character and beat the second player. When the CPU battle finally begins, it will have reset to Battle 1. The match will still be against Gouki, but in Thailand! The next ten battles are against Gouki in other locations.

FIGHT CPU GARUDA

With any character, you must get two perfects and four super finishes before battle 10. On top of that, you must perform a level 3 super combo finish. If your character has a level 3 super (Gouki, Evil Ryu & Zangief), then that can be utilised.

Now, each character below must perform a combo at least once during the game that does the following number of hits:

Allen Snider & Darun Mister - 6-Hit Combo

Blair Dame, Cracker Jack, Ken, Pullum Puma, Ryu & Zangief - 7-Hit Combo
Guile, Hokuto, Kairi & Skullomania - 8-Hit Combo

Gouki & CPU Gouki - 9-Hit Combo

Doctrine Dark - 11-Hit Combo

Chun-Li - 12-Hit Combo

Garuda, CPU Garuda, Vega, CPU Vega, Evil Ryu & Evil Hokuto - 13+ Hit Combo

GOUKI'S (AKUMA'S) BEADS

Finish Gouki off with a Super Combo and his necklace will break off.

TEKKEN

EXTRA CHARACTERS

By completing the game with each of the eight standard characters, you'll earn yourself the opportunity to play the game as the respective character's sub-boss. Although some aren't great variations on the original character, it's still good for a laugh!

HEIHACHI MISHIMA

The final boss bloke is slightly harder to obtain. You must complete the game in under five minutes, 30 seconds without continuing.

DEVIL KAZUYA

To access Devil Kazuya in Arcade mode, you must complete the Galaga loading game with a 'Perfect'. To do this, you have to blast all eighth levels of the game without missing a single craft. To assist you, try blasting the first wave in less than 18.5 seconds to receive a duel-craft for double the firepower. You can also practice each wave by pressing Select after it has finished to repeat the stage again - however, by doing this, you wont be able to obtain the Devil.

DUAL GALAGA CRAFT

To obtain two Galaga crafts, press and hold ↑ L1 △ × on the second control pad as you switch on your PlayStation. You wont be able to use this cheat for the Devil.

TEKKEN 2

CHOOSE A POSE

You can determine which of the two victory poses your character performs. After you've won a bout, press and hold □ or × (right through the replay) to get the first; ○ or △ to get the second.

MORE POSES

Six of the fighters have a third finishing pose after winning a fight: Law, Paul, Michell, Jack 2, P Jack, Kunimitsu, and Kuma.

Simply hold both kick buttons down, from the moment you win the fight, right through the replay to the end.

FIRST-PERSON PERSPECTIVE

1. First of all you must obtain all the hidden characters in the game.
2. Go to the character-select screen.
3. Hold down the L1 and L2 buttons and select your character in the normal manner.
4. Now your fighter will appear as a wire-frame model.
5. When the fight starts, the view will change to a first-person perspective.

BIG-HEAD MODE

1. Acquire all the hidden characters in the game.
2. Start again but hold down the Select button when you select your fighter.
3. Keep it held down until the round begins.
4. You should now see that your fighter's head has been blown up!

SKY MODE

If, having obtained all of the secret characters, you press ↑ + Select when choosing a character, lo and behold you will enable SKY MODE! You must hold down this button combination until the fight actually starts, at which point you will hear a 'punch' sample to confirm that the cheat has been activated. Basically it allows you to fight *à la Mortal Kombat*, with certain uppercut-type moves resulting in your opponent flying high up into the sky. For some reason it works with sweeps as well.

Note: This particular cheat also enables Big Head Mode 1.

BIGGER-HEAD MODE

1. First perform the Big-Head Mode cheat.
2. If you're playing in arcade mode, hold down Select when you reach the continue screen.
3. Your head and arms will now be bigger than ever before!
4. If playing in Vs Mode, go back to the character select screen and hold Select again whilst choosing a fighter for the same effect.

PURPLE KAZUYA

1. All the secret characters must be accumulated first.
2. Start a new game and highlight Kazuya.

3. Now hold down Start while selecting him.
4. He'll now fight in his third, purple costume.

THOUGHT BUBBLES

1. Play in practice mode.
2. Leave your character alone for a while.
3. You'll now see thought bubble appear above his or her head.

OBTAINING KAZUYA MISHIMA

1. Acquire all the sub-bosses by completing the game using the ten original fighters.
2. Play through using a sub-boss.
3. Once completed, Kazuya will be added.

DEVIL & ANGEL

To obtain this duel character, Complete the game with Kazuya.

SELECT ROGER/ALEX

1. Get to the Devil or Angel...
2. Start a new game with any character and when you reach the third fight, defeat your opponent on the last round with only a particle of energy left.
3. If you do it right you will hear the word "Great" and the next fight will be against Roger or Alex. Beat them.

THEATRE MODE (JAPANESE VERSION ONLY)

View the *Tekken 2* endings at your leisure!

1. Unplug the second controller.
2. You must have all the available characters stored in your memory card.
3. Load up the game. When the words 'Namco Presents' appear; press \uparrow , \rightarrow , \circ , \times , and Select - holding the last four down when you press them. It's tricky as you need to enter this sequence quickly before the words disappear.
4. If unsuccessful, the game will load the normal opening intro. Try again.
5. If successful, you'll be taken to the Tekken 2 Theatre. Here, you can scroll down the list of FMV endings (and openings!) and play any one of them.

Note: After about 10 seconds or so of inaction, this mode will exit automatically, so keep moving around if you plan to stay.

TAUNT OPPONENT (JAP VERSION ONLY)

To access the additional Sound and Disc options, you have to view all the endings for the extra fighters, including Tiger. Note that some characters have shared endings, so you only have to complete the game with one: Yoshimitsu/Doctor B, Kuma/Panda, Ogre/True Ogre.

The 'Sound' option allows you listen to all the music, while 'Disc' lets you insert the *Tekken 1* or *2* disc to view the endings from the earlier games!

SCHOOL BACKGROUND

You must first acquire either Jin or Xiaoyu's school uniform by playing them

50 times in Arcade mode. Then select a two-player Vs game and choose the uniform by selecting and confirming Jin/Xiaoyu with Δ , BEFORE your opponent selects his fighter. They'll be fighting on a school yard background.

TOTAL DRIVIN'

ACCESS ALL TRACKS

On the main options screen, use the R1 button of controller 1 to tap out the rhythm: "Ding dong, the witch is dead, the witch is dead, the witch is dead." (Use the flashing cursor as a metronome.) Then wait five seconds. If you've entered it correctly, you'll hear an engine roar. You can now race any of the six courses at each location - as the first five have "Track Complete" indicated.

ACCESS ALL SWITZERLAND LEVELS

Tap out the rhythm to the song "Doe, a deer, a female deer" (from The Sound Of Music!) on the main selection screen with the R1 button - use the flashing cursor on the screen to keep time.

Now wait a few seconds: if you've successfully entered the code, you'll hear an engine roar, and when you go to the Course Select option, all the Switzerland levels will have the words "Track Complete" across them.

ACCESS ALL MOSCOW LEVELS

As above, but replace "Doe, a deer..." with "Jingle bells, jingle bells, jingle all the way".

t

ACCESS ALL SCOTLAND LEVELS

As above, but replace "Doe, a deer..." with "Hark, where the night is falling", from Scotland The Brave.

ACCESS 4 PLAYER TRACKS IN 2 PLAYER MODE (AND VICE VERSA)

As above, but replace "Doe, a deer..." with "Zipe-dee-doo-dah, zipe-dee-ay".

Now, when playing in 2 Player Split-Screen mode, you will be given access to six new tracks. Also, when playing in 4 Player Link-Up mode, you will be able to race the tracks usually reserved for two-player racing.

ACCESS ALL HONG KONG LEVELS

On the main options screen, use the R1 button of controller 1 to tap out the rhythm to: "Deck the halls with boughs of holly", then wait 5 seconds. If you've entered the code correctly, you'll hear an engine roar and the words "Track Complete" will appear on any Hong Kong level selected.

ACCESS ALL EASTER ISLAND LEVELS

As above, but tap out the rhythm: "Happy Birthday to you, Happy Birthday to you."

ACCESS ALL EGYPT LEVELS

As above, but tap out the rhythm: "Always look on the bright side of life." (It's a tricky one, though! Try "si-side" instead of "side".)

ACCESS MULTI-PLAYER SUICIDE MODE

Tap out the rhythm: "Supercallifragilisticexpialidocious" to activate the Suicide Mode. Select an 'A' track in split-screen mode and you'll race around the track in opposite directions!

HIDDEN TRACKS:

To activate the hidden tracks you must be team Ahmad.

MOSCOW 2

Near the end of the course you will see a ramp: use it to jump over the left-hand wall where the level warp is located beside a building. When you enter it, the screen will shrink and the words 'loading extra level' will appear.

EGYPT 1

After you've crossed the third bridge, you'll see a building. Use the ramp on the right to get to it, then drive around to get into the level warp.

SCOTLAND 3

Just before you get to the woods, hit the cliff on the right so that you land on the right-hand side of the woods. Drive straight forwards into the sign and you should hit the level warp.

SWITZERLAND 1

Follow the track through the village and under the cable-car. You will enter a tunnel, which you should continue through until you cross a small bridge. To your left are a number of buildings. Drive off the road and around the back of these buildings. You will see a yellow and red spinning shape. Drive into it.

HONG KONG 5

Drive around until you reach a dirt track. Once on the latter, you will eventually come to a small low bridge across a small stream. Get off the road and quickly try to drive under the bridge. Drive into the orange ball under the bridge in the middle of the stream to start the bonus level.

EASTER ISLAND 2

From the start, turn your car around and

drive to where you can see a cruise ship. On your left-hand side you'll find a red and white barrier, and behind that is a small road. At the end of that road you'll find a level warp (the easiest way to go over the barrier is on the right side).

SAVE MONEY

One to two hours before the end of the month, transfer all of your scientists and engineers to another base. Since they are in transit they don't get paid.

EASY MONEY

This is an easy way to get millions of dollars. First go and investigate a crash site, then when you finish it, research Alien Alloys. Once it's researched, manufacture a lot and sell it all for a nice profit - it costs \$3,000 to make, but sells for \$6,400. Also, sell all but one alien corpse. After you research it, sell it and get \$20,000 for each one.

Turbo ring, then change the Weapons to 'Tons'. To use this option on other rings, use the Change Ring code (R1, R2, R1, R2, Select) instead of the D-pad to choose another ring.

WCW VS THE WORLD

HIDDEN FIGHTERS

By beating the eight bosses in the game, they're added to the list of playable fighters and can be used in any mode except the league challenge.

First, do a league challenge and fight with a JR class wrestler. Win all six divisions with the same guy and you will fight a boss. In WCW it's Jeff Jarret. There are others such as Major Tom, Steel Talon, and Grizz Lee.

If you win all six divisions there will be a new division called Super JR. Win in that and the penultimate hidden fighter is Jaguar.

Then go on and do the same thing with a heavyweight class. You will fight the same bosses through the six divisions. Winning them all reveals a new Super Heavy division whose boss is The Giant - the final hidden fighter.

OLD 'UNS

To fight as the old Hogan or the old Sting, press Start (instead of X) to select them. Do the same for Masahiro Chino and he'll fight with an NWO shirt on.

Now whenever you use a weapon, you should have it replaced straight away. You can toggle through the various weapons by pressing the 'drop weapon' button.

SHADOWMAN COMPLETE SOLUTION

ShadowMan may be an immortal voodoo warrior, but he still needs help to find all those Dark Souls, weapons, and Cadeaux. Part one of our illuminating full solution starts here.

LEVEL 01

Location: Bayou Paradis, Louisiana

From your starting point in the shallow waters of the bayou, turn right and grab the Cadeau in the dark crevice. Now head forward through the water to enter the passage on the left. Follow this through the canyon, jumping over the small gaps as you go, until you reach another stretch of water. Take a right and wade through the pool, entering the cavern beyond to collect two Cadeaux – carry on through the passage and under the bridge to find one more. Head back to the pool and climb the ramp, jumping to the next ledge. Cross the bridge just ahead but jump as you hit the middle of it otherwise you'll fall as it collapses beneath you.

Carry on down the path between the two ridges until you get to a boat sitting in a shallow pool. Ignore the dog and climb up onto the wooden walkway, then run along it and round the hut at the end. There are some Cadeaux inside but you can't reach them yet so just keep heading along the narrow path. The gate blocking the doorway of the next house is locked - don't try to open it. Jump up at the rope tied to the wall instead and climb along to the ledge beyond.

Grab the Cadeau as you drop down and enter the cavern in front of you. Climb the steep stone step into the mine, collect another Cadeau, then run up the ramp on the right. Turn left and leap to the Cadeau on the wall – as you grab it, you'll also catch hold of a narrow ledge. Clamber to the left and, when you are level with the wider opening, pull yourself up and run through the short tunnel to enter the church grounds.

Don't worry about the dogs as they won't hurt you. Head to the rear of the church to find a padlocked crypt and a Cadeau

next to it. Run back to the other end of the church to enter the large double doors. Inside you'll find Nettie who gives you back your items: a Handgun (with unlimited ammo) and your brother's Teddy Bear, which you can use to travel between Liveside and Deadside. Once you know what to do next, collect the two Cadeaux (one by Nettie, one on the altar) and then head through the door opposite Nettie's room. Push the large crate out of the way and grab four more Cadeaux then head back outside to the grounds.

Go over to the crypt and blow the padlock off with your Handgun (make sure you've armed it in the inventory screen), then go inside to find an abandoned mine. Drop into the hole on the left and surface quickly (press e then hold s) when you land in the water – sadly, breathing underwater isn't one of your strong points! Swim down the tunnel and make it back onto dry land but don't get excited as you need to drop into the next pool that you find. Follow the right watery tunnel along, diving down to grab a Cadeau and swim through to the next cave. Surface there, then dive through the next tunnel to reach a large lake.

Swim ahead and towards the submerged building on the right. Grab the Cadeaux under the water behind it, then swim inside it and climb onto the ledge to get a Shotgun. Go back outside and head for the other building that contains a ramp onto dry land – avoid the alligator as you head up it. Follow the dry gully along, past another 'gator. Head through the next cavern (which contains Nettie's guard dogs and another Cadeau), then drop into a rocky canyon. Head down here, climbing the stone steps as you go and grabbing another Cadeau in the short tunnel. Drop down and head under the broken bridge (which you crossed earlier). Follow the passage back round to the bridge and head over it again.

When you get back to the boat, go round the far side of it to find a boarded-up hole. Shoot the four planks, then enter and drop through the gap to enter a chamber with three Cadeaux inside as well as a whole stack of barrels. Follow the tunnel to find a Govi, even though you can't open them yet. Drop down to the floor below then follow the path to emerge back near the broken bridge again!

Make you way back past the boat and along the wooden walkway, blowing the barrels away that block the entrance to

the first hut in order to collect two more Cadeaux (and Medikits). You still can't open the gate around the corner though, so now's the time to whip out your Teddy Bear and travel to the Marrow Gates in Deadside.

LEVEL 02

Location: Marrow Gates, Deadside

Wade through the bloody water and take out the Ghoul that lurks behind the stone pillar with your Shadowgun (then collect his Energy if needed). Take a quick look to your left to see a Blood Falls. You can't climb it yet but remember where it is as you'll need to come back here later when you've earned new abilities. Carry on through the water and take out the Ghoul that rises up. Head up onto dry land and follow the passage, blasting some more Ghouls that reside there. Continue down the passage, jumping over the water and trenches until you find your friend Jaunty sitting outside the Marrow Gates.

After listening to his blarney, head through the now-open gates and follow the long passage beyond, wading through the water and shooting a Ghoul. When you reach the crevasse, turn left to shoot a Ghoul by the fire. Shoot another Ghoul behind him, then head down the ramp to shoot a third. Take a quick look around. Note the door with three drum-like posts in front of it on the right, then head back up the ramp and over the pit on the right to find another passage. Follow it to reach an open area.

Turn right and deal with the Ghoul there. Follow the path through the gap and past a floor tile that looks vaguely familiar (the church grounds perhaps in the Bayou?) and then get the next Ghoul on the left. Blow open all the nearby jars to get two Cadeaux, then drop down the steps and take out the Ghoul at the bottom – note another Blood Falls above the pool ahead of you.

Head back up the steps, past the floor tile, and walk across the rock bridge over the area below, making sure to leap over the gap in the middle. Follow the passage beyond – notice the flame-marked cloth covers along the walls as you'll have to come back here later – but watch out for the Bladed Ghoul at the end, who'll slash you if you get too close. Explore the areas

to the left (another Cadeau sits in a jar here) and right (a Cadeau in a jar guarded by two Ghouls), then head down the next passage. Watch for another two Bladed Ghouls as it widens – shoot the jars for Energy.

Climb up onto either of the right ledges. Jump around the ledges to shoot the four jars and collect more Cadeaux. Jump over to the rope and use it to cross the wide gap and reach the platform on the other side – watch out for the Bladed Ghoul waiting for you though! Follow the right passage until you end up on a ledge above the three-drum gate. Blast the jar in front of you to find another Cadeau, then jump over the gap to the next ledge and head into the tunnel.

Kill another Ghoul in the passage and keep walking until you reach your first Coffin Gate that lead to the Paths of Shadow. The markings around the outside are coloured according to how many souls you need to have if you want to open them. Luckily, this one has no colours on it so you can just open it by pressing **L** while standing by the cross-shaped pedestal in front of the gate. Run down the winding tunnel until you enter a huge chamber – check out the shining pedestal in front of you to find the Prophecy left by Maxim St James for you to find. This Prophecy holds important information about the tasks ahead of you, as well as the powers you'll need to earn in order to be victorious over Legion and The Five – read it and remember it well!

Turn left and leap onto the low rocky ledge. Head up it, jumping the gap above the entrance, to find another Coffin Gate – you can't open this one yet as you need to have one Dark Soul in your possession. Head over the rock bridge, jumping the gap, to find a Govi. Blast it to reveal the first Dark Soul for you to collect. Don't touch the panel behind it, though, as it burns with elemental fire and cannot be moved yet. Instead you should head back over the bridge to the Coffin Gate and open it with your new soul power.

Blast the jars for Fire Skulls (ammo for later, magical weapons) before entering the Gate. Follow the narrow passage until you reach the cloth bridge. If you look down to your left, you'll see another Coffin Gate below requiring two Dark Souls to open it. Shoot the Bladed Ghoul below, then drop down and blast the jars for a Cadeau and Fire Skull. Head up the ramp,

back to the bridge, and turn left to enter the Temple Of Life.

LEVEL 03

Location: Temple Of Life, Wasteland

Shoot the jars for Energy, then take a peek over the right ridge to see another Coffin Gate – you need lots of Dark Souls to open it. Now take either of the two passages (left takes you low; right high) in front of you to reach a large chamber full of bloody water. Drop into the water and shoot the fish. Thankfully, you can't drown while in Deadside so feel free to explore underwater to find another Cadeau in a jar. When you jump out, shoot the jars for some Fire Skulls. Head over to the switch on the right and press it to extend the rope crossing before turning around to face the falls.

Head for the Blood Falls on the right and jump to the low ledge to its right. Head left past the Blood Falls and jump via the sloping ledge to the one by the rope. Use the latter to cross to the other side. Smash the jars for Energy and a Cadeau before dropping down and collecting the Cadeau from the roof of the hut next to the switch. Drop down and jump into the water by the hut to find an underwater passage.

Follow the passage through the murky water until you surface in a pool. In the next room are two Bladed Ghouls, so retreat to the pool to shoot them. When they're gone, head through to the room and blast the jars for Energy and two more Cadeaux. Press the big switch next to the cog to rotate a doorway back in the hut.

Swim through the tunnel again, resurfacing next to the hut – shoot the winged Harpy that attacks from above. Enter the hut and head through the rotated doorway, and the next door. There's a Govi over the hot coals on the left, but you can't reach it yet. Shoot the jars on the right for Energy, then jump over the gap in front of you and head through the door. Follow the passage down to the next open area and watch out for two Bladed Ghouls who attack you simultaneously. Take them out by using the strafing method, then head round the right of the large rock (to the left of the ramp) to shoot another. You'll find a Cadeau in the nearby jar. Continue round to find two jars containing Energy, and a switch. Press it to extend the rope,

then head back and climb the ramp you just passed. Jump over to the canopied area at the top and shoot the jars to find two more Cadeaux, Energy, and a Fire Skull. Jump to the nearest ledge on the far side, then left to the next one and enter the right tunnel.

At the end is a chamber similar to the one you just left. Head down the ramp and over to the right to find a Cadeau in a jar under the wooden tower. Then head for the narrow ledge on the wall just behind it. Run up this ledge watching out for the Bladed Ghouls which appear down below (shoot them if you can). Jump via the ledges to the one going around the stone spire. Head round it and jump to the wooden walkway, then follow it to the next spire. Carefully grab the Cadeau on the left narrow ledge, then head round to the right. Jump to the next ledge which leads to a tent containing a Govi – blast it open and collect your second Dark Soul!

Drop down to the floor, watching out for any more Bladed Ghouls. Head for the tunnel to the left of the wooden tower. Follow it round to find that Govi you saw earlier over the hot coals. Blast it for Dark Soul 3, then head back down the tunnel. Head up the slope and through the passage, back to the original room with the canopy.

Head right along the ledge and climb across the rope. Follow the passage to the next room and kill the pair of Two-Heads. Head along the right passage, under the wooden walkway) to a room with more wooden walkways. Shoot the Two-Head and then the jars for a Cadeau. Return along the passage and head right to shoot the Two-Head on the ledge. Climb up there and enter the short tunnel to find another Govi – blast it for Dark Soul 4.

Exit the tunnel and jump from the ledge to the wooden platform to find a Cadeau in the jar. Make another leap to grab another and carry on over to the last wooden section. If you look closely at the wall ahead you'll see a ledge – empty your hands and jump towards it to grab on then clamber left. At the end, press a to put your feet on the wall and hit s to fly backwards onto the wooden walkway behind. Follow this round to the left, killing the Two-Heads, to collect the Asson on the plinth. This new weapon is powered by Fire Skulls so don't use it too much or you'll run out of ammo!

The doorway leads to the as yet unopenable Coffin Gate you saw near the start (and a tunnel leading to hot coals), so don't bother going down there yet. Instead drop down and head back along the passages to the main chamber with the rope crossing. Drop down and head up the slope. Halfway up, turn around and jump to the narrow sloping ledge which leads to an opening. Follow the tunnel and head left along the ledge to a hut: blast the jars for two Cadeaux and a Fire Skull. Continue past the hut, following the ramp down to the floor and killing two Bladed Ghouls. Head along the far passage to claim two Cadeaux and Energy from the jars.

Return along the passage and enter the tunnel in the right wall. Through this passage, you'll enter the lower section of an area populated by Harpies – don't worry too much though as they're too high to cause any real problems. Drop down to blast the jars for goodies and collect the Cadeau hiding behind the pillar. Then press the switch to activate a rope crossing back in the previous room.

Head back there and climb the ramps back to the hut on the top level. Run along the walkway past the passage leading back to the main chamber and leap over the gaps towards another opening that you can see in the distance. Halfway along, stop and turn left to jump to the wooden walkway leading to the rope. Before using it, blast the jars for a Cadeau. At the end of the rope, blast the Govi to claim Dark Soul 5. Blast the nearby jars for Fire Skulls. The tunnel here leads, via some Two-Heads, to an area with a fiery pushable block, and some lava with a Govi on the other side – you'll need to go down there later.

Cross the rope back to the wooden walkway and jump over to the rocky ledge. Head left, jumping the gap, into the passage and follow it to enter the upper area of the Harpy Lair – when you walk to the edge of the ledge leading onto the cloth bridge, you'll activate a marker that acts as a restart point. Head over the bridge, taking care of any Harpies along the way and enter the chamber at the end. Follow the path (left or right) around the walls until you reach a room at the end. There's a passage covered by hot coals ahead as well as a glowing altar that you can only activate with the Baton. Make a note of their location, then turn right and jump into the opening beyond the gap. Turn the corner and use the sinking platforms to leap over the lava –

don't take too long! Stop before the next gap in the floor and take care of the Bladed Ghoul on the other side then leap over and head down the passage. Jump over the gap at the end to land on a platform with spikes rising out of it. Head to the far side and look down to see a narrow ledge below that you can stand on – there's a jar here with a Cadeau inside it. Now get back up and jump left to another passage. Take a note of the fiery block on the right, then jump past the spikes to get some Energy and a Fire Skull from the jars.

Head back along the passage to jump to the first set of spikes, then left to the original passage. Enter the room on the left, jumping the gap. Turn around to see a Cadeau on the wall – jump over to get it and grab the narrow ledge there. Clamber left as far as you can, then push a to put your feet against the wall, then jump safely to the dry land. Jump to the Cadeau and next narrow ledge, then clamber left to the end and jump back. Ignore the sinking platform and opening – head along the left passage, dodging the fireballs spat out by the statue at regular intervals. Leap past the spikes and turn around to face the wall: jump to grab the narrow ledge, then clamber right for a Cadeau.

Leap off onto the platform behind you but watch out for the spikes as you land. Turn around and shoot the Ghoul before jumping over to his ledge. Follow the passage left, blasting another Bladed Ghoul. Ignore the Cadeau behind the gate and blast the jars before heading left to drop down the hole. Run into the room to blast the two Bladed Ghouls. Then drop down the hole into the watery room.

Follow the tunnel to enter the Temple Of Loa – this is an important place and should be noted as such. Each time you find 100 Cadeaux, you should return here by warping in via the Baton Altar and offer them on the Loa Altars at the sides to increase your Life-Force. Ahead on a pedestal at the end is the Baton. Place it in your left hand and use it on the glowing altar to teleport back to the altar near the entrance of the lava area. With the Temple Of Life cleared for now, pull out your Teddy Bear and use it to transport yourself back to the Prophecy Chamber on the Paths Of Shadow. Run through the Coffin Gate at the top of the ramp and through the passage to the cloth bridge. Drop down and use your Dark Soul powers to open the next Coffin Gate.

LEVEL 04

Location: Asylum Gateway

In the cavern beyond the Coffin Gate are two more Gates, each requiring an addition to your Shadow Level meter before you can open them. Ignore them for now and head into the opening by the fire, onto the cloth bridge to see a cut scene.

Walk forwards and leap onto the metal pipe. Cross it, jumping the gap to enter the brick passageway. Head round to a room and leap over the acid pool onto the raised floor. Take a right turn by the metal cabinet and head up the ramp to the room at the top. Head into the right passage (left just takes you back to the previous room) and time your runs past the two crushers before dropping down into the outer grounds of Asylum for a short cut scene.

Run forwards and to the right slightly to cross the drawbridge and find the entrance to Asylum as well as another restart point. Of course, they're not likely to let you into Asylum just like that – in fact, the door is locked tight. Drop down onto the pipe in the lava on the right and head along it, avoiding the flame jets. Turning left through a lava-filled room, it leads to an opening with a crusher. Jump up and run through the crusher before continuing down the corridor and through another one.

Drop out of the passage onto a metal pipe and run left along it, past the flame jets, jumping onto the wooden platform at the end – the barrels contain Energy. Turn right and wait for the moving platform to come down before jumping on board. Take a look at the pipe on the right to spot a Cadeau on the far end of it – you can take a (tricky!) leap and land right on top of the pipe to collect it before getting back on the moving platform. Ride it to the other side and jump right to the hexagonal platform. Jump to the next and follow the lowest pipe round to climb into a passage.

At its end, jump the gap to the wooden platform. Wait for the next lift to come down, then use it to reach the pipe on the left – the two barrels each contain a Cadeau. At the far end, jump to the lift as it comes down, then quickly turn left to jump to the adjacent lift and ride it over to jump to the next pipe. Run along, dodging the flame jets. Leap into the opening on the left, run through the crusher and along the corridor past another crusher.

Climb the ramp past the giant cog and continue along the passage, past the grating, to an opening. Drop down through it, ready to take out the two Ghouls below. Enter the door, then the door on the left – shooting the mad Butcher from the doorway. In the barrels you'll find two Cadeaux. Exit the room and head through the opening on the left to enter another corridor with doors on either sides. The one on the left holds a Ghoul and a Cadeau, while the right is a locked door with a metal cabinet next to it – remember this as you'll need to come back here with the Engineer's Key.

The door at the far end of the corridor holds another Cadeau, but watch out for the Butcher guarding it. Exit and head through the opposite passage, noting the large metal door on the right. Head through the next archway, then through the right passage. Shoot the Sniper and blast the Govi for Dark Soul 6. The barrels contain a Fire Skull and Cadeau. Don't worry about the Govi on the boxes to the left – you need to drop down from the walkway above to get it.

Exit the room and follow the narrow metal corridor to the top. Take out a Butcher on the left, and another two on the right. Enter the door to find two Cadeaux and a Fire Skull, then exit and climb into the left of the two openings. Walk forwards at the junction and drop down the hole. Shoot the barrels for two Cadeaux, then turn around and follow the passage to another hole. Drop into the room and collect the Engineer's Key from the pedestal in front of you, but watch out for the Sniper shooting through the window. Equip the Engineer's Key and use it on the two metal cabinets to open the locked door and change the light on the metal door from red to green. Now whip out your Teddy Bear and transport yourself back to the Asylum: Gateway.

Use the Engineer's Key on the metal cabinet to open the front door to the Asylum and then run back to where you originally dropped into the outer grounds. Head towards the pillar on the left and use the key on the cabinet there to activate a crusher in a lower passage – this allows you to get through the tunnel below where you dropped in and get back to the first area of Asylum. Forget this for now and head back to the main entrance of Asylum.

Go through the door, collect the Cadeaux on either side, and head over to the next door, taking out the two Snipers on the

SHADOWMAN SOLUTION

ground (ignore the higher ones). The barrels contain extra Energy and Fire Skulls. Shoot another Sniper as you approach the far doorway, then follow the passage right to a room with a Govi: shoot it for Dark Soul 7.

Now go back down the corridor, past the entrance, to another small room, where you'll find two Cadeaux in the barrels. Head right, following the passage along and you'll come to an open area with a Sniper guarding a Govi. Get rid of him and claim Dark Soul 8. The door on the right with the green light is now open (leading back to earlier areas), but instead run up the ramp on the right and over to the metallic red cable car above the lava. A door in the side will open, so go in and press the lever on the control panel to activate the cable car.

LEVEL 05

Location: Cathedral of Pain, Asylum

Exit the cable car and run forwards, taking care of the two Snipers who come to greet you. Duck into the opening on the left and follow the passage along, running down the four flights of stairs to the chamber at the bottom. Pass through the doorway on the right, shooting the Butcher, then through another doorway into a lava-filled room. Leap over the gap to the platform ahead and pick up Dark Soul 9, then smash the left barrels for two Cadeaux. Jump back to the original ledge and head right to a white-walled room to kill a Butcher. Get two more Cadeaux from the barrels. Then head back up the stairs and along the passage to the area where you exited the tram.

Run left to the end and go through the door to a short corridor – another restart point. Go through the next door to the Cathedral Of Pain. Take care of the two Snipers at the top of the stairs in front of you and then check out your surroundings. There are five ways out of this chamber – a large set of double doors directly in front of you and four smaller archways with stairs leading up. The exits each have a symbol above them; from left to right they are:

- A set of crossed spears
- A sword
- A lizard
- A bolt of lightning

- **A spike**

This is the central hub of the Cathedral of Pain and is the place from which you can track down the Five. Each doorway leads to a different member of the Five, although not all of them are accessible to begin with. Explore the whole area by passing through all the doorways – there are a total of 11 Cadeaux to collect, as well as a number of Snipers to deal with in the Cathedral. After clearing the place out, you're left with a choice of which member of the Five to go after first. The only two available at the moment are the Video Nasty Killer, Milton T Pike and Marco Roberto Cruz – unfortunately, trying to take on either of them is impossible right now (if you don't believe us, try it for yourself). Head through the arch marked with Crossed Spears and press I in front of the corpse at the top of the stairs to chase after Milton Pike.

LEVEL 06

Location: Gardelle County Jail, Texas

As you arrive, it's important to note that you're back in Liveside now, so don't rely on your ShadowMan powers too much! On the left you'll find some barrels with Medikits and Shotgun ammo. Run down the corridor and turn the corner to find Milton. Whatever you do, **DON'T** try to have a gunfight with him – this is the same with all of the killers at the moment. You see, they are dead people reanimated with Dark Souls and so while they reside in Liveside they cannot die! Shooting Milton only makes him more angry, so ignore him as best you can and run for the far left passage, shooting the barrel there for a Cadeau. Follow the passage, ignoring the padlocked door for now, to find the MP-909 machine gun on the desk. Go back to the padlocked door and use your Handgun to blow it open – inside you'll find the Accumulator. With this collected, there's nothing more you can do here, so whip out your Teddy Bear and transport yourself to the Prophecy Chamber.

Climb the ramp and pass through the Coffin Gate, follow the passage and drop off the bridge to go through another Gate. Head around the upper ledge and use your Dark Soul powers to open the Coffin Gate ahead of you – inside you'll find La Lune, the first part of L'Eclipser. There are three parts of this to find

SHADOWMAN SOLUTION

and combining them allows you to change Liveside into Deadside, giving you a chance to kill the Five. Get rid of the two Bladed Ghouls that have appeared outside and then use your Teddy Bear to visit Nettie in Bayou Paradis to find out about the powers of L'Eclipser. Use the Teddy Bear again and head back to the Prophecy Chamber before running through to where you collected the first piece of L'Eclipser.

Drop down to the lower Coffin Gate and use your powers to open it. Run down the passage and down the spiral ramp, jumping the gaps and collecting the five Cadeaux on the way. Shoot the two Bladed Ghouls at the bottom, then enter the tunnel. Follow it to a chamber with two more Coffin Gates, each requiring more Dark Soul power to open them than you've actually got at the moment. Ignore them and instead head left onto the cloth bridge.

LEVEL 07

Location: Temple Of Fire

Follow the winding passage to the large open chamber at the end. Drop into the shallow water and head through the tunnel. Head along the passage and through the next tunnel to a room with a ramp up the side. Climb the slope and enter the tunnel. Round to the right you'll notice a Blood Falls; to the left you'll find a flame-marked doorway and Coffin Gate. After this sight-seeing tour, head back to the first room with the shallow water.

Climb the ramp and leap the gaps to enter the tunnel. Head right past the pool and through the next tunnel. At the end take a big leap over to the small alcove with a Cadeau in a jar. Empty your powers, turn around and jump to the next alcove for another Cadeau. Now drop back down and make your way back up the ramp to the pool you walked past earlier.

Dive into the water and shoot the fish, smashing the two jars for Cadeaux. Swim through the tunnel, shooting more fish, and surface in a pool with two Blood Falls. Climb out and enter the passage at water level. Head round either side of the two walls, carefully avoiding the fireballs spat by the statues on the right of the second. You are now in the Temple Of Fire. Turn around and, avoiding the fireball, press the switch on the wall, then run back to the pool in the other room.

Run up the ramp behind the Blood Falls on the right and follow it all the way to the top. Go through the large opening and round the two walls for a nice view of the raised pillar and fires. Grab the Cadeaux from the two jars. Press the switch on the wall behind you, then head back to the pool room. The passage to the left leads up past a spitting statue to another flame-marked door, so don't bother yet. Make your way back down the ramp until you see a grey blockage on the right.

Blast it apart, then follow the passage beyond to reach a large room with a wooden walkway. Ignore the opening on the far wall (you can't reach the Govi) and head round and down the wooden walkway. Enter the next opening on the right for Dark Soul 10. Exit and continue down the walkway to the bottom. Head round to the left, past the spikes, to press the switch on the wall. If you want to get some Fire Skulls you can venture into the small room opposite the switch, but you should be extremely careful of the three Phantoms inside who can cause you immense amounts of pain. After that, climb back up onto the walkway and head back to the pool room.

Continue down the ramp and blast another blockage to enter the next opening on the right. Take the passage through to the long chamber before running to the end and climbing onto the ledge underneath the crescent moon on the wall. Empty your hands and jump up to grab the narrow ledge above then move along to either the left or right before pulling yourself up onto the wider ledge. Turn around and jump to the pillar, jump across again and then carefully walk onto the narrow wooden beam to the rafters. There are six Cadeaux to collect: two at each end of the beams, plus two more in the alcove that doesn't contain a Phantom. After getting them, look down in the middle to spot a ledge with a switch. Drop down there and press it – three Demi-Phantoms come to life and drop down from above. Take care of them (or just leg it) before making your way back to the pool room.

There's another entrance for you to blast open a little further down the ramp. Follow the passage and run past the two inactive Phantoms (for now). Climb the left stairs and time your move past the first fire-spitting statue. Once the statue in the far-left corner has fired, quickly run round the ledge, past two more statues, to reach a gap. Shoot the jar on the other side

before jumping over, past another statue. Head past another statue to reach the central staircase. Run to the top and press the switch – the two inactive Phantoms come to life, along with a Demi-Phantom in the room below the staircase. Kill/avoid them and head back to the pool room.

Head down the ramp to the last blocked entrance and blow your way through. Go down the corridor and through the room, down another corridor and into a room full of pillars of different heights. Avoiding the spikes and fire-spitters, smash the jars in the near left and far right corners for two Cadeaux. Jump to the low platform by the second Cadeau, then left to a higher ledge. Avoiding more fire-spitters, jump up the platforms to reach the highest one in the middle. Press the switch and drop down, watching out for two Phantoms arriving from the adjacent room. Kill/avoid them and return to the pool room.

With all the switches pressed, it's time to head back to the Temple Of Fire. Go through the opening at water level and head past the walls and fire statues. The stepped pyramid should now be complete and the fires extinguished. Head up there to collect Dark Soul 11, then go through the iris-shaped opening in front of you – a restart point.

At the bottom of the passage is the main temple. Run over the floor tile and jump the gap, then run the gauntlet of turning blades and swinging hammers – if you get it, there's Energy in the jars at the end. Enter the next iris door and take a short jump via the platform to the next iris. Go through to a room where the floor is covered in hot coals. Leap from the wooden platform to the one ahead and then carry on along the walkways, avoiding the hammers and blade – the four jars contain Energy. Before exiting, remember the four Govi around the sides of this area for later.

Climb the stairs and enter the heart of the Temple Of Fire. Smash the four jars for Fire Skulls, then take a huge leap forwards so that you land on a large platform in the hot coals below. If you look to the centre, you'll see one half of a structure – the other half of it hangs high above the altar. To lower it, you'll need to make your way around to the four alcoves at the sides of the altar, pressing the switches contained within. Watch out for the Phantom who arrives to hinder your efforts, then head over to the large opening at the rear of the altar to find the

last switch. Jump over to the structure and climb inside – you'll rise up and be granted with your first set of tattoos, the Gad Toucher.

The Gad Toucher allows you to push those blocks that were originally too hot to touch and climb along places with fire on. Test out your new powers by heading for the left of that burning ledge. Jump up to grab the ledge, clamber right, and pull up into the opening halfway along. Run down the corridor to a large room. Jump left for a Cadeau, then drop down to the floor and press the switches in the far left and right corners. Jump up the ledges to the entrance to use the new rope. Clamber across, collect the Cadeau, then jump via the left ledge to the exit. Climb the stairs and enter go into a room with five fiery blocks.

Move the far left block and enter the chamber for goodies including a Cadeau. Move the block opposite that room for two Cadeaux. Don't bother moving the other block on that side, as it only contains a Phantom. Instead move the one diagonally opposite – kill the Phantom inside, then head up the stairs. Follow the passage beyond to get Dark Soul 12 – one of those you saw above the turning blade room earlier. Jump down onto the platform and dodge the blade, heading right to re-enter the altar room.

Head for the opening to the left of the far left switch, where you'll find a fiery block. Push it out of the way and run down the corridor to a room with several wooden ramps. Drop down and take out the Phantoms, and another two up above. You can restore your Energy from the jars in the little room. Jump up to the first wooden walkway and run along to the end. Collect the Cadeau, plus other goodies from the little room, then turn around and jump to the walkway in the far left corner. Turn left and shoot the jar, then wait till the fireball's gone before jumping across to the Cadeau. Jump to the left ledge, then to the right one. Jump to grab the burning ledge and clamber left to pull up.

Follow the tunnel to find Dark Soul 13 (above the turning blade room). Now's the time to do a bit of backtracking and open up all of those places blocked off by burning blocks – whip out your Teddy Bear and transport yourself back to the Prophecy Chamber.

LEVEL 08

Location: Various

Run up the ramp and over the broken ledge to the passage with the fiery block. Push it to find a chamber with Dark Soul 14 inside. Now use the Teddy Bear to go to the Temple Of Life. Head over the cloth bridge and follow the same route as before, past the spikes, to the corridor with the fiery block. Once again, this can be pushed aside to find another Cadeau and Dark Soul 15. Use the Teddy Bear to return to the entrance of the Temple Of Life and this time head left, through the tunnel. Jump the small gap, then jump right to the wooden walkway and cross the rope. Follow the tunnel, shooting Two-Heads, then head along the next passage to the fiery block. Push it to find Dark Soul 16, but watch out for the two Bladed Ghouls guarding it.

With this section cleared for now, it's time to revisit Asylum: Gateway. Drop off the left of the drawbridge and follow the pipe, dodging the flames and entering the opening at the end. Run through the two crushers, then drop onto the pipe below and head over to the bin with flames on top. Empty your hands and grab hold before edging your way around to the other side to drop down. Do this again for the next bin, then follow the pipe and jump up to the next one, collecting two Cadeaux from the barrels in the corner. Go left up the ramp and follow the passage to the room at the top, killing two Butchers. Collect Dark Soul 17 and get a Cadeau from the barrels. Watch out for a Sawblade in the next room. After killing him, go through to the third room with a Ghoul in a cage. Head through to a wide corridor to find Dark Soul 18. Shoot the Butcher who attacks, then proceed to the junction. Head right and kill the Butcher, then up the darkened slope to a room with a Butcher and Sawblade. Once they're dead, grab Dark Soul 19 and four Cadeaux from the barrels. Head back down the passage and straight over the junction, up all the stairs. Turn right at the next junction and shoot the Butcher. In the room at the end is Dark Soul 20 and two Cadeaux in the barrels.

By now you should have four segments of your Shadow Level meter full. Use your Teddy Bear to reach the Prophecy Chamber. Follow the same route you used to reach the Temple Of Fire (end of Level 06, start of Level 07). After swimming through to the

pool with the two Blood Falls, head up the ramp behind the left-hand Blood Falls. When you reach the top, duck into the opening on the left. Push aside the fiery block at the end and head through the passage beyond, past spitting statues, to reach another Coffin Gate. Blow it open and follow the passage. Shoot the jars for two Cadeaux, then drop down to collect the Poigne from the pedestal. Finally, you can climb the Blood Falls!

Take a left turn and climb up the Blood Falls there. Take a big leap from the top, over the lava, to claim Dark Soul 21. Turn around and jump to the Blood Falls, climbing back up. Go back to the entrance to this room and climb the falls there, then head back through the Coffin Gate to the pool room. Climb the falls on the right and collect the two Cadeaux there and then go up the opposite falls and follow the passage beyond. Dodge the fireballs and spikes, then shoot the Govi at the end for Dark Soul 22. Be careful when you jump onto the pillar that it sits on or you'll have go all the way around again to get it! After that, jump over to the platform ahead to collect two Cadeaux, avoiding the spitting statue.

Pull out your Teddy Bear and transport yourself back to the entrance of the Marrow Gates – it's time to check all those Blood Falls that you passed earlier. Turn left immediately as you arrive and climb the Blood Falls to collect Dark Soul 23, as well as finding the ultimate Coffin Gate – you need all the Dark Souls to get this one open! Drop back down and head along the path, past Jaunty (and another cut scene) and through the Marrow Gates to the chamber on the other side. Head left and follow the passage round to the broken rock bridge and a Blood Falls on the left. Kill all the Bladed Ghouls and climb up the falls to find Dark Soul 24. Now use the Teddy Bear to transport yourself to the Prophecy Chamber.

Exit the chamber through the Coffin Gate that you've used so many time before and over the cloth bridge to the Wastelands. Take the left-hand tunnel to the pool with three Blood Falls. Climb the right-hand one and follow the passage to a hut containing Dark Soul 25. Watching out for Harpies, go back down the passage and climb the opposite Falls for a Cadeau. At the end of the short passage is a tunnel on the left – follow it down to a blood-filled room. Using the platforms around the outside, make you way up to the top level and onto the nearest

of the two circular ledges, collecting Dark Soul 26 on the cloth walkway between them. Drop down and take a quick swim around the outside to locate two Cadeaux before moving along the bottom to find a large opening leading into an underwater passage. Follow it to the end and surface in an open area with a large spire in the centre, leading up to a windmill. Head up the steps, collecting two Cadeaux from the jars and watching out for Harpies. At the top, collect Dark Soul 27. Head up a couple more platforms to the wooden walkway and follow round to enter the hut. Press the switch to activate the windmill sails. Drop back down and swim back to the large pool.

Surface and climb out to enter the left tunnel. At the end is an area with a moving lift (thanks to you starting the windmill). Shoot the Bladed Ghoul and head up the right ramp, then ride the lift left to the next walkway. At the end is Dark Soul 28. Drop into the pool for another Cadeau, then use the Teddy Bear to return to the Prophecy Chamber.

At this point you should have your Shadow Level half full, filling up five of the ten segments on the meter. Time for one last trip to a distant Coffin Gate for another important item – the Flambeau. This allows you to burn open the flame-marked cloth covers blocking several doors and also lights your way in darkened areas! Follow the route towards the Temple Of Fire again. When you reach the blood pool, head through the low tunnel. Go through another at the end of the passage, then up the slope into a tunnel. Head left, round to the Coffin Gate you noted earlier. Enter it to claim the Flambeau. Test it out on the two flame-marked doors there to find two Cadeaux. Head out of the Gate and open another flame-marked door on the right, containing a Cadeau. Don't overuse the Flambeau though – just holding it in your hand uses up your Fire Skulls.

Use the Teddy Bear to go to Marrow Gates. Run through the level, past Jaunty, to the broken rock bridge. Head over it into a corridor with three flame-marked doors. Burn these away for four more Cadeaux and some Fire Skulls.

CADEAUX COLLECTION

There are 512 Cadeaux hidden in the game. For every 100 collected, you can get increase your maximum Life-Force by one

point. By the end of this month's guide you should have well over a hundred, so use the Teddy Bear to go to the Temple Of Life. Cross the bridge and enter the Temple to find the Baton altar. Use the Baton in your left hand on it to teleport to the Temple Of Loa. Now go to any of the five Cadeaux boxes in the alcoves and press 1 to post a hundred Cadeaux. You'll notice that your Life-Force meter has risen to six red points – the new maximum. As soon as you have 100 more Cadeaux, come back here to repeat the procedure.

LEVEL 09

Location: Cageways, Asylum

Use Teddy Bear to go to Prophecy Chamber. Make your way through all Coffin Gates you've opened so far to area with hot coals, two Coffin Gates, and cloth bridge leading to Temple Of Fire. Open left Gate, enter and explore shallow water areas beyond for two Cadeaux. Ignore cloth bridge on left for now and instead open Coffin Gate on right – this opens up yet another area to explore later. For now, though, all you need to do is nip inside and grab Le Soleil, the second part of L'Eclipser. This safely stashed away, head back out of Gate, then turn left and go across cloth bridge to Cageways.

Drop to lower path on other side of bridge and take a quick look around. There are three drums here similar to those found in Wastelands – make a note of this location and then head back to bridge and take higher path to left. Jump gaps and enter opening on far side, burning away cloth-covered door to reveal a Cadeau. Continue down passage and then drop through hole to level below – be careful of two Ghouls. Empty your hands when they're dead and jump up to grab wall ahead of you. Clamber along to right and then jump off at end onto a stack of boxes – collect Cadeaux behind you, then turn around and take a running jump over wall to area beyond.

Kill two Ghouls here, then use sloped rope tied to corner to climb over to tower over next wall. Drop to floor and corner left by train, up to opening in the rocks. Push block there and follow passage, burning through all cloth doorways to find four Cadeaux before eventually ending up back near the start of the area. Return to area with train and go through the small

doorway on the right into tower. Once inside, take care of Butcher guarding three barrelled Cadeaux. Head upstairs, getting rid of another Butcher, and blast Govi for Dark Soul 29. Head back outside and enter train via short passage.

Run down train carriages, dodging Ghoul in cage and taking care of Sniper guarding two Cadeaux in third carriage. There's another Sniper in fourth carriage and then the fifth is the control room – use Engineer's Key to activate train and take a ride back into Asylum. Leave train by door on left, killing Sniper outside and activating another restart point. Run round opposite side of train and collect two Cadeaux before turning around and blasting Sniper sneaking up on you. Ignore cable car up stairs ahead and drop onto metal pipe on left. Climb around burning pipe to enter door at end.

Head down passage and go through doors at end, dropping onto pipe below. Grab two Cadeaux on right, but watch for cages moving around outside of room – they'll knock you into lava. Get around pipe without falling in and jump onto platform at end, killing Butcher and collecting Dark Soul 30. Now use your Teddy Bear to warp back to the point outside the train (Cageways). Instead of going up stairs, head round to right to enter a wide sliding door. Continue through another door and down steps to find Dark Soul 31.

Pull lever at end of room to open doors and unleash two Ghouls and Sawblade. Kill them all, then look at cage moving back and forth through opening on left. To get through doors, you'll have to jump onto ledge and wait for cage to pass through, opening doors for you. Follow cage through more doors to next area and kill Sawblade. Pull lever to activate cage high above floor. Shoot another Sawblade, then climb stairs. Halfway up, stop and turn to right, jumping on banister and facing where cage comes in through double doors. When it arrives, quickly jump onto it, then over to stack of boxes just ahead for Dark Soul 32. Now fall back down to floor and face stairs again.

Head through open door slightly to right and go down blood-soaked corridor to room at end. Kill two Snipers and Sawblade, then run up stairs behind pillar and leap across two hanging cages to reach Dark Soul 33. Now head back to train at the start of the level before diving into red cable car and hitting lever inside to get it moving.

LEVEL 10

Location: Engine Block, Asylum

At other end, run down ramp to floor and up slope opposite to hear Luke's voice. Run down passage, up slope, and through door on left to enter Engine Block. Inside, you'll spot Luke calling out for you but can't reach him yet. The Engine Block is a long room with huge pumping pistons – to get across you'll need to shut them all down. Turn left and head through door, ending up in large chamber with rope crossing. Don't use rope yet though – turn right and go down ramp, clearing bottom area of two Cyclops guards before returning to the higher platform.

Cross rope, killing Cyclops on right. Head over there and down ramp on right, swivelling around to blast Cyclops behind. Continue through door, past control panels and up ramp in next room to kill another guard. Go through to Piston Room 1. Use Engineer's Key twice on each panel to move purple pistons to top of tubes – shutting down the first piston back in the engine room. When you've done this, use Teddy Bear to return to Prophecy Chamber.

LEVEL 11

Location: Playrooms, Asylum

Make your way through all previous Coffin Gates to area where you collected second part of L'Eclipser. Run through and down large stone steps to find another Gate and Cadeau. Head over cloth bridge to Playrooms of Asylum.

Turn left on other side and jump along narrow ledge, then make a right and leap onto platforms by the pool below. When you reach lowest platform, dive in and look at airlock on wall in front of you – it's locked. Swim right, then corner left to spot an opening near surface just ahead. Avoid fish and swim inside, then surface and follow passage. Leap up ledges, collecting a Cadeau, until you appear on a platform high above the pool you swam through. Leap over to ledge ahead, ready to shoot Butcher and Sniper before entering chamber at end. Unlock metal cabinet to open airlock below, then dive back into water and swim through it.

Follow underwater passage to chamber with lots of fish and a Cadeau. Swim past rotating blades in next tunnel, then down and past another. Grab a Cadeau from barrels and surface. Get out quickly to deal with three Snipers, then head down ramp on left. Turn right and continue down to very bottom of room, killing Sniper and Sawblade en route. Collect two Cadeaux from barrels on left, then enter door.

Go through right door, into a passage. Shoot Sniper and Butcher at other end, then head right at junction. Run forwards, ignoring door on left and taking opening ahead instead. Through another passage, you'll find a locked metal door and a control panel. Pull lever to unlock door, then blow away Butcher and Cyclops inside and collect two Cadeaux in barrels. Make a note of hot coals here as there's a passage above that you'll have to return to later. Now head back to room with long ramp.

Run back up ramp to another door on right. Go through and past another door to bridge with a Sniper. Shoot him and enter far door (restart point). Head left at junction, through a door. Shoot two Snipers and run up left ramp to find a set of doors with pentagram on – continue through here, past another set of doors and climb the stairs for Retractor (check under stairs for two more Cadeaux). Collect it and head back up to bridge.

Drop off bridge and shoot two Butchers. Dive into pool and grab two Cadeaux. Climb out into passage with rotating blade – head past it and climb Blood Fall. Follow passage and shoot Cyclops guards in room. Jump left to collect Dark Soul 34, then dive into water for a Cadeau.

Return to bridge room and shoot large mound in middle of pool to reveal a passage. Swim down it, dodging blades and collecting two Cadeaux, until you enter a large chamber with a round opening in front of you. This is blocked by another airlock, so climb out to right, shooting Cyclops. Kill another in control room on left, then unlock cabinet to open airlock. Before you go through it, head down passage opposite control room and kill two Snipers. Enter passage at the end of pool, then climb Blood Fall. Follow passage to room and shoot two Cyclopes before collecting Dark Souls 35 and 36. Collect two Cadeaux from water, then return to newly opened airlock.

Swim through it and climb out. Get two Cadeaux from barrels, then enter door. Follow passage into another open room. Shoot

Cyclops, then pull left lever to unlock door. Enter it and shoot Cyclops guarding a Cadeau. Back outside, climb ramp on right and go through door at top – ignore right-hand turning and head into door ahead. Don't unlock that cabinet yet – go through the water and climb into passage on left. Follow it past blades to corridor with lots of doors. Push lever at end to unlock them. The nearest room contains a Cyclops by a pool table; the next, three Cadeaux in a tank; the third, two Dogs and a Butcher. The last room contains a playpen with a Butcher and Cadeau. Push nearby block to find more Cadeaux. With these rooms cleared, go back to lever and pass through door next to it, following ramp round to go through another door.

Collect Dark Soul 37, then pull lever and turn left to enter door. Follow passage to room with two Cyclopes. Shoot them, then climb into tank for Dark Soul 38. Collect two Cadeaux from barrels, then return to lever. Enter right of two far doors. Go down ramp into control room, blast Cyclops, and pull lever to release massive Trueform – thankfully, he can't get to you... yet!

Now head all the way back to metal cabinet and unlock it. Go through door and straight along passage, back to large room with pool and lever. Head round to right and unlock cabinet to open airlock. Enter new round passage near pool, dropping down into water tunnel. Follow it to room: collect two Cadeaux from barrels before climbing out at far end.

Climb over wall and shoot Dogs before entering left door. Follow tunnel through another door, then take door up right ramp. Pull lever to open door, then kill three Dogs and collect Dark Soul 39. Go back down ramp and through right door to large room. Climb into tank for Dark Soul 40. Drop down and insert Accumulator into one of the small cabinets to collect some Violator ammo – you can't get the actual weapon yet, though, as you need three more Accumulators!

Warp back to Prophecy Chamber. Run through first Coffin Gate and over cloth bridge to Wastelands before going all the way through the level to place where you collected the Asson. Follow path from this chamber through to Coffin Gate. Open it and run inside to collect the Enseigne, a handy shield. Go back through Gate and drop down before heading back across cloth bridge to Prophecy Chamber.

LEVEL 12

Location: Temple Of Prophecy

Drop off bridge and head through all Coffin Gates opened so far until you reach Gate next to cloth bridge leading to Playrooms. Open it, then run inside, following passage to fiery chamber with wooden platforms. There are three Coffin Gates above you, but you haven't got enough Shadow Level to open them yet – run left instead and cross cloth bridge there to reach path leading to Temple Of Prophecy.

Head slightly to right of Coffin Gate, through another passage to reach entrance to temple. Run down stairs to enter it. Avoid fire-spitting heads and enter iris door. When you reach large room, watch for four Sisters Of Blood that descend – use Enseigne to deflect their shots. Run through next door and passage with fire-spitters. In next large room, head for left-hand side of statue. Press switch and kill two Sisters, then climb Blood Fall at front of statue. Jump left to collect Dark Soul 41, then head back over to entrance and take left-hand doorway.

Run up stairs and through door at top, dropping onto narrow wooden walkway. Carefully head across network of walkways, avoiding fireballs, and exit through door at end. Follow passage through next door into large room with hot coals. Jump up and grab beam, letting it carry you over to small platform on left. Drop off, then jump over to door, heading through passage into another coal-filled room.

Jump over gaps and across platforms, avoiding blades and fireballs, to enter another door. Follow passage to another statue room. Drop down and hit nearby switch. Kill two Sisters, then cross rope to collect Dark Soul 42. Drop back down and kill another two Sisters, then grab two Cadeaux from jars. Use Teddy Bear to return to start (Temple Of Prophecy).

Go through to the room with four Sisters. Kill them, then climb Blood Fall in centre for a Cadeau. Turn right and jump over to enter passage. Follow it to a room with lots of fireball-spitters. Drop to floor below and press switch on central tower twice, then head up ramp. Use wooden beam you moved to clamber over to next switch. Press it to make statue opposite drop down. Drop to floor and kill Sisters, then hit switch there twice more. Climb up and cross beam to new passage for Dark Soul 43.

Drop back down again and hit switch three times to move beam in front of door on far side of the room. Climb over it and enter door. Go through next and dodge fireballs to enter another door. In large room, head left and jump to grab ledge. Clamber right to next platform, then shoot Sister. Jump to far ledge, then head right and jump to platform for Dark Soul 44. Drop down to shoot three Sisters, then head through right-hand passage opposite where you entered, pushing aside burning block and running past fire-spitters.

When you reach next chamber, ignore Govi on the left. Run across to door opposite and follow short passage to a room with two more switches. Hit them to lower statues, then take long ramp up and around room to top for Dark Soul 45. Kill four Sisters, then head through door to right of where you entered. Cross small platforms to far side and enter door leading to maze of corridors.

Make your way through the maze, burning four flame-marked openings with Flambeau and collecting Cadeaux while killing Sisters. When you find an opening in wall (over on right), jump into it and walk along walls to reach high doorway. Follow passage through more doors to next big room.

Enter hut on the right and next door. Jump over coals to next hut. In here, the tattoo chamber, enter structure ahead to collect your second set of tattoos, the Gad Marcher. This allows you to walk across those previously deadly hot coals, but doesn't allow you to swim in lava. After being dropped onto coals, head left to doorway, collecting jarred Cadeaux before entering. Push switch on left of the pillar to lower Dark Soul 46. Now run back to tattoo chamber and head for far door, collecting Cadeaux before entering. Go through to room and climb into far cage for Dark Soul 47.

Back in tattoo chamber, head left to exit the way you originally entered. Head through hut, over coals, and up through another hut. Climb Blood Falls opposite for Dark Soul 48. Drop down and kill the Sisters, then enter right door. Through passageway is a long room with swinging hammer. Kill four Sisters, then climb narrow ledges on slopes to glowing altar at the top – use Baton to teleport through to an area just above entrance to temple. Turn around to find Dark Soul 49 on right. Turn around and head right, then push grey block to form a

makeshift staircase back up to altar – you can now access the heart of the temple whenever you like!

Head back up to altar and teleport to centre of temple again. Drop back down, running through door at end of room, then through another one into large statue room. Climb to sides and press two switches, killing Sisters, to reveal Dark Soul 50 in statue's chest.

After collecting it, head through doorway on right. Head through passage and room with hammers and blades. In next room, jump via top of cage to the opposite door. Head through next room, then along passage to large room with a Govi above a slope on right. Head left around ledge to find a bar – jump and grab it, pulling it down to raise some steps to the Govi. Drop off and quickly run up them to claim Dark Soul 51.

Enter right door and go through to another hot coals room. Head up left ramp, then jump up to top. Jump over to right and drop to left to clamber across crevice. Jump via platforms to exit door. Head through to a hot coals room. Climb up ramps at left end and head past fire-spitters to find a small bar – grab it and hang on to raise cage. Wait until cage has risen as far as it can, then drop off and quickly run up ramps and over to it, jumping cloth parts of ledge.

Collect Dark Soul 52, then drop off and enter lower door. Through passage you'll return to tattoo chamber. Collect two Cadeaux by lava moat. The temple is cleared for now – time to do some more backtracking for useful items!

DRUMSTICK DELIGHT

The Marteau drumstick is an optional item. You don't need it to complete the game, but you can use it to bang on the drums scattered around the levels to open the nearby gates for lots of goodies.

Once you have seven segments of Shadow Level, warp back to the Temple Of Prophecy. Turn around and head along the passage to that Coffin Gate you couldn't open previously. Blast it open to find the Marteau. Test it out on the nearby three drums to remove the planks blocking the way ahead.

LEVEL 13

Location: Various

Warp to Playrooms. Turn around and exit through door, then exit back to large ramp room. Kill Snipers and head down ramp to enter door at bottom. Go through right door and through passage – watch out for Butcher and Sniper. Turn right at junction and through door at the end. Through next door, enter sliding door on right and shoot Butcher and Cyclops.

You can now climb up over hot coals for Cadeau, then climb up into passage. Head left at junction, dropping into room for Dark Soul 53. Pull lever to open nearby door before heading back into tunnel. Head straight past junction and drop into room at end of passage... to meet the Trueform you released earlier! He's very big but not all that tough – keep blasting and dodge his shots to down him quickly. When he dies, he'll leave Dark Soul 54 behind.

Warp to Temple of Life. Go inside and drop onto hot coals by altar. Head through two arches, then right to find a floating platform. Jump into opening by it and head along passage, past fire-spitters, to more hot coals. Head left through arch to find Dark Soul 55. Return through arch for Dark Soul 56.

Head back past fire-spitters to floating platform, then left into narrow tunnel. Collect Cadeaux when it widens and follow passage (collecting another jarred Cadeau) to Coffin Gate where you collected Enseigne. Warp to Temple Of Fire.

Enter iris door and drop onto hot coals to collect two Cadeaux. Climb back up and proceed past hazards to second room. Jump over lava and enter third room. Drop onto coals and take first left, following passage past fire-spitters to room with a wooden tower in middle. Run up ramp to first level, dodge blade, and leap into alcove in wall to press switch. This opens a door high above but also unleashes four Sisters below. Quickly jump back to ramp and run up two more levels, leaping over and grabbing wall to pull up into alcove there – make sure you've got hands free or you'll fall. Push burning block out of the way, then run down passage and collect Dark Soul 57 at end.

Drop down and run right, collecting two Cadeaux from ledges on either side. At end of chamber, take left-hand opening and follow passage to another room with a ramp. Collect Cadeau from room at the bottom, then run up ramp. Collect jarred

Cadeaux and shoot Sisters. Continue to top to enter yellow passage. Follow it around to Dark Soul 58. Now warp back to Prophecy Chamber.

LEVEL 14

Location: Bayou Paradis, Louisiana

Run through all open Coffin Gates until you reach chamber with hot coals, two Gates, and cloth bridge leading to Temple Of Fire. Drop into hot coals and collect three Cadeaux. Get out and open locked Coffin Gate. Run down tunnel and leap onto wooden platform at end, crossing into room with three locked Gates. Drop down and cross coals to enter far tunnel. Follow it, shooting Ghouls, to another Gate. Enter it to collect La Lame, the third and final part of L'Eclipser. With all three parts collected, use your Teddy Bear to pay a visit to Nettie in the church of Bayou Paradis.

When the ritual is completed, the world of Liveside will be no more – Deadside is here! Collect Dark Souls 59 and 60 by altar, then run outside and head left to an altar. Use Baton to teleport inside locked shed halfway through the level. Collect Dark Soul 61 and two Cadeaux. Teleport yourself back, then head to back of church grounds into crypt again. Drop down hole and into water, then head over to dry land and drop into next pool. Instead of following underwater passage to right, go forwards and take a long swim to a new area (you can't drown here any more). Follow passage and cross rope, then enter two sheds to collect Dark Soul 62 and a Cadeau.

Drop off cliff by rope and follow path round to right until you wind up back under broken bridge. Go forwards to collect Dark Soul 63, then continue round, up ramp and over bridge, to wrecked boat. Go inside and follow path up to high ledge with Dark Soul 64. Warp back to the church. Exit and enter crypt again to drop into water. Head through to pool, then take right underwater tunnel to reach large lake where you found Shotgun. Go into shed on far side for Dark Soul 65. Now warp to the Cathedral of Pain.

LEVEL 15

Location: Gardelle County Jail, Texas

Run through crossed-spears archway and climb stairs to corpse at top. Press 1 and you'll teleport through it back to Gardelle Jail where Milton Pike awaits. Use the pillars as a shield against his massive machine gun and take him down (you can use your Shadowgun now) to reveal Dark Soul 66. Replenish your health and ammo, then head back to teleport point to return to Cathedral.

Go back down stairs and return to main room. This time, take lightning archway to reach another corpse at the top of stairs. Teleport through for a battle with Marco Roberto Cruz. He's got a big sub-machine gun to contend with, so take cover behind the piles of boxes while blasting him with fully charged Shadowgun shots. When he's gone, collect Dark Soul 67 and blast barrels for goodies and a Cadeau. Head up ramp to room to collect 0.9 SMG. Head back to Cathedral and through big double doors at end, marked with lizard.

Run through archways and climb stairs to top to find an inactive corpse. Use the Retractor you found in Playrooms to activate it, then teleport to next member of the Five, Dr Victor Karl Batrachian. Go through opening ahead and turn right, following passage along – watch out for corpses that spring to life! In large room at the end, kill four corpses, then collect Cadeaux from barrels. Enter open door in middle of left wall for another. Enter other open door and head through to the main prison yard – follow it round and collect Key Card from room at end. Use it on panel to turn light green.

Retrace your steps to large open room, shooting more corpses, before heading through wide opening on opposite side to reach another yard. There's a helicopter hovering here. Dodge its gunfire by using boxes for cover and climb ramp on left, reaching top level and facing chopper. Keep strafing to avoid its bullets and blast it out of the sky with your SMG. Once you've done this, it's time to find Batrachian – head back round walkway and through opening in wall ahead.

Go down stairs and take a right. Use Key Card on panel at end, then turn right, running straight across prison yard into another opening. Follow passage and take first right. Head left at junction to find four Cadeaux in the showers. Head back and go

straight past junction, shooting corpses. Grab two more Cadeaux, then head up stairs. Go down ramp to a prison yard. Collect Cadeau from barrels, then enter far room to find another panel. Use Key Card on it, then head back up ramp and down stairs to junction. Head left and turn right at next junction, following passage into yard where you fought Cruz.

Run up ramp and down stairs, taking passage past locked gates to room at end. Use Key Card to open both of them, then head back and take the first right. Grab Cadeau in corner, then leap over counter into kitchens. Shoot corpses and follow path round to small room. Grab another Cadeau, then jump up via fridge. Follow passage to another small room. Collect two Cadeaux on right, then head left to prison yard. Drop in and shoot corpses, then enter near-side room to use Key Card on panel. Back in yard, head for far passage, then right at junction. Head up slope to the Cruz yard and run all the way back to the yard where you downed the helicopter.

Run through opening ahead of you and follow passage, taking a right at end. Head down here to find where you wiped out Milton Pike – cross room and take left-hand passage past where you collected MP-909 to find an open lift-shaft. Drop down and shoot corpses, then follow long passage round into (yellow) mental wing of prison – ignore right-hand turn into green passage and continue round, using Key Card on panel at end. Double-back and take passage you ignored, nipping into morgue on left to collect a more powerful Shotgun. Exit and shoot barrels for a Cadeau. Continue round to left and grab a Cadeau to right of the stairs before climbing them. At junction, take a right to re-enter yellow mental wing.

Shoot corpses and search all padded cells for Cadeaux. Then take stairs down into lower area and collect two more Cadeaux from the two cells. Return up stairs and go back into green corridor. Head straight over junction and round into red-carpeted chapel. Grab Accumulator from altar, then check the left-hand room outside – use Key Card on panel inside. Head back to junction, then right and back down stairs. Enter newly opened gate in corner to enter Maximum Security wing where Batrachian is being kept. Considering he's the leader of the Five, he's not exactly the most difficult person to beat. Just keep circling him and blasting him with fully charged Shadowgun

shots until he eventually goes down. You then get his Prism and Dark Soul 68. Blow open barrels in the two small rooms for goodies, then follow passage there to find first Soul Gate. Place Prism in pedestal and go through. Collect two Cadeaux in dark corners, then step into light to travel to Engine Block.

LEVEL 16

Location: Engine Block, Asylum

Kill Cyclops guards and Snipers before entering rooms on either side and unlocking cabinet in each to open main doors. Head down passage beyond them and up ramp on right, killing Sniper. Follow passage round, through door at end. Kill Cyclops in control room, then pull lever to unleash two Trueforms in chamber below. Kill Cyclops behind you and eliminate Trueforms to collect Dark Souls 69 and 70. Unlock cabinet in far corner to open exit. Climb up onto first Trueform's cage and leap across boxes to reach narrow ledge before edging along it and reaching new opening.

Follow passage on other side and jump over, grabbing onto pipe at end. Run along to left (avoiding blades) and kill Cyclops before unlocking cabinet to open nearby passage. Jump inside and follow it, then run up ramp on right to spring trap and release Trueform behind you! Kill it for Dark Soul 71, then go back up ramp and pull lever to bring another empty cage into room. Go up next ramp and unlock cabinet to open locked door. Kill two Sawblades inside, then go back to empty cage and enter it to be taken through to next chamber.

Exit cage and go round back of it to find a door to go through. Follow path round boxes into torture chamber – kill three Cyclopes and collect Dark Souls 72 and 73. Go back to cage room and head up ramp opposite. Pull lever on right to open cages underneath, releasing a Trueform – drop down and kill him to collect Dark Soul 74 before going back up and taking care of two Cyclopes in small caged control room. Pull lever here, then unlock cabinet outside to open up nearby passage.

Follow passage into another control room with two Cyclopes to kill. Go through next door opposite to find Piston Room 4. This time moving them all to the top does nothing – you need the right combination. So warp back to the Cathedral Of Pain.

LEVEL 17

Location: Cathedral Of Pain, Asylum

Turn around and leave Cathedral. Shoot Snipers, then head through right doorway. Run down steps into long coal-filled room at bottom. Drop into hot coals and turn left, running down passage to long room at the end. Collect four Cadeaux, avoiding rotating blades, then go through right arch into long corridor. Follow it and climb out of coals onto ledge and run past all spinning blades before jumping up steps at end. Turn around and run along top of pipe, avoiding blades. Collect all Cadeaux on way to far ledge, where a Butcher awaits.

Take a right and run up stairs, entering first doorway to find two Cadeaux and Dark Soul 75. Exit and continue up stairs to large control room. Kill Sniper and Butchers here, then run around ledge to collect two Cadeaux. Now warp to Cageways.

Drop into hot coals ahead. Turn left for two Cadeaux, then jump out there and follow stairs to top. Ignore door and head into opening on left, killing two Snipers below from balcony. Leap over onto moving platforms and cross them to other side, taking time to collect Cadeaux sitting at top of each one. On far side, kill another Sniper, then head into small room on right and throw switch – this starts the cage moving outside. Exit and jump right to ledge with Govi for Dark Soul 76. When cage is out of the way, jump back to balcony. As cage moves away, grab rope and climb over to drop down on Govi for Dark Soul 77.

Head back up stairs and cross moving platforms once more, stopping on third one along to enter passageway at top. At end, jump to grab rope, then climb right to drop on crate for two Cadeaux. Keep moving along rope to collect Dark Soul 78, then turn left and jump onto metal pipe before leaping over to green ledge. Turn left to see a cage – it's possible to leap forwards and catch the edge of it, climbing inside for Dark Soul 79. Now drop down, killing three Sawblades, and get back up to rope via low box and original ledge. Cross it to first crate, then drop and turn left to run and jump to crate for another Cadeau. Get back to rope and climb across and leap via pipe to green ledge again. Head down passage and go through door. Collect two Cadeaux from barrels, then leap into cage for Dark Soul 80. Now warp to Asylum Gateway.

Drop off to right, crossing hot coals to far ledge for two Cadeaux and Dark Soul 81. Follow ramp all the way up to junction, shooting two Butchers. Head left to find two more Cadeaux and Dark Soul 82. Go back and across the junction, down slope to control room, shooting Butcher, and Sniper behind. Go through archway on left into another room. Ignore right-hand opening and go forward through one on left, following passage to ledge overlooking first room of Asylum. Shoot Sniper and grab two Cadeaux and Dark Soul 83. Double-back and go through opening you just ignored, crossing wooden beams, ignoring Govi on the left. Follow wide wooden walkway into next room, round to left into control room – kill two Butchers, grab two Cadeaux, and unlock cabinet. Backtrack through to previous room, back round wooden walkway, and jump over to Govi you ignored earlier for Dark Soul 84. This done, warp back to Prophecy Chamber.

LEVEL 18

Location: Lavaducts, Asylum

Run through first two Coffin Gates and drop down to reach third. Don't go through it though – instead, head over to altar in front of you and use Baton to teleport through to coal-filled chamber near where you collected La Lame. Climb up wooden platforms, collecting Cadeaux, to find three Gates you saw earlier. Open seven-segment one, then follow passage to cloth bridge. Get Cadeau and goodies from jars before crossing bridge into Lavaducts Of Asylum.

Run forwards between giant arches, killing Sniper and Sawblade. Climb up stone steps to top and leap over and onto bridge. Run left along hot coals to left, killing two Snipers. Jump out at end and climb stairs to left. You'll emerge in a large room covered with hot coals – run left to passage and kill Sniper, then unlock metal cabinet. This unlocks two small doors just to right and behind you – the one on right contains two Cadeaux; the other leads to a long sloped passage. Follow this up to drop into a long control room. Run straight to end for Dark Soul 85, then pull lever to unlock door. Exit and run down ramp on far left to kill two Butchers and Sniper. Return back up ramp and take stairs on left.

At top of stairs you'll find a lever to pull – this activates the large stirring mechanism in the lava pit beyond. Run up next flight of stairs to find it and activate a restart point. Ignore all this for now and head back to the metal cabinet which you unlocked. Head round to right and follow passage to control room with Dark Soul 86. Pull lever, then head through door, back to room where you killed Sniper and Butchers. Head back to main coals room and follow far passage to climb out into control room, then head upstairs to find Cyclops and Dark Soul 87. Pull lever here to unlock door and enter, killing three Sawblades. Head up stairs and jump over barrier to ledge with barrels for two Cadeaux. Head back up stairs and round to left, shooting Cyclops in control room. Jump over to short bridge section (above hot coals room) for two Cadeaux, then jump back. Head back round to top of stairs and over to door. Go through it and a control room to return to lava pit.

Wait for rotating platform to turn in your direction, then run onto it. Ride it round and jump off onto next ledge to collect Dark Soul 88 and a Cadeau. Jump back onto rotating platform and ride it round to jump off onto next ledge. Shoot two Cyclopes, then get two more Cadeaux from barrels, before heading down stairs on right. Follow passage and enter room full of boxes – kill two Sawblades here and leap up onto boxes above, collecting Dark Soul 89. Drop back down and take stairs in corner to top level. Run straight through chamber with slope, to room beyond to kill three more Sawblades. Grab Cadeaux and jump to boxes for more and Dark Soul 90. Return to slope chamber and climb narrow ledges, collecting Cadeaux on way, before entering passage at top and dodging blades. Pull up onto step at end and then double-back, crossing long tube and dodging blades again for more Cadeaux. Head left along ledge and drop onto pipe for a Cadeau, then pull back onto ledge. Head along it and enter passage on left, following it until you fall back into lava pit room. Now warp back to Prophecy Chamber and work your way back to the Coffin Gate that led you to the Lavaducts.

LEVEL 19

Location: Temple Of Blood

Climb back up to top of wooden platforms and open eight-segment Coffin Gate. Pass through tunnel and collect a Cadeau from jars before crossing cloth bridge to Temple Of Blood, the last of the Gad temples. Run forwards to far wall and press switch on left to lower a statue. Shoot Sister, then push burning block to find some goodies. Exit and jump up via ledges to find a second switch to right of remaining statue. Press it to lower statue, then shoot another Sister. Jump up to ledge by fallen statues and enter left opening for goodies. Then enter right opening and follow passage to main temple. Slide down slope to first ledge for a restart point.

Jump around ledges for three jarred Cadeaux, then onto central platform in lava, but ignore caged Govi for now. Instead, cross to left and right ledges in turn to press switches and collect two Cadeaux. Then head back up slope and over to right corner. Grab narrow ledge, clambering right until you can climb up into newly opened gap. Follow passage beyond down into a room with four doorways, three of which are blocked. Drop off wooden walkway and press switch underneath to rotate the opening until it's on the right. Kill Sister, then run through rotated opening, pressing switch at end to start blood flowing down pillar outside.

Kill another two Sisters, then go back to previous room and press switch twice more to open up left-hand doorway. Run up stairs and shoot Sisters, then drop through to room with Blood Fall. Climb latter for two Cadeaux, then drop down and enter small opening, pushing grey block till it drops. Ignore switch and run through to another room with a Blood Fall. Climb it and grab a Cadeau, then leap over to collect Dark Soul 91. Drop back down and take right passage. Press switch ahead to launch rope a little further along. Turn around and head right along passage, avoiding blades (stick to middle). Drop into pit for Cadeau, then jump up to ledge in lava-filled room. Kill Sister, then climb across rope to grab Dark Soul 92. Now warp back to the main arena (Temple Of Blood).

Head right across steps to corner and clamber left along ledge to enter other opening on top level. Go down stairs into a lava-filled room and leap across platforms to pillar going up and down. Ride it up, then jump right to ledge. Turn left and jump along to far corner. Drop (backwards) left from near edge of last

ledge, onto small platform below. Jump to ledge with moving statues and time your runs past them. Jump via ledges to switch on right and press it. Turn left and jump past sliding beams to pillar. Jump right to jars between statues, then head left to door. Follow passage to next room. Jump over to right, then grab crevice. You'll need to edge left along it past the rotating blades – make your move just as each passes into the wall. Drop down on other side and dodge moving statue before entering next doorway.

Ignore opening on left and run past inactive Sister to rope switch at bottom of stairs. Press it, then head back upstairs and kill Sister. Enter right door and run up ramp. Cross new rope, avoiding rotating blades, to door on other side. Go through passage into a large open room. Approach blood pool, then shoot two Sisters. Climb up both Blood Falls to collect Cadeaux, then drop down and follow hot coals passage, dodging blades, to collect Dark Soul 93. Turn around and run through the coal-filled passage ahead to emerge in the Gad tattoo chamber. There are five switches here that all need to be pressed to activate the tattoo structure. There's one directly behind you and four others around the sides. Be warned though – the platforms in the lava sink when you stand on them, so be quick! Make your way around the room, pressing the switches. Finish with the two on the far side, then head up the stairs.

Finally, you've got the Gad Nager! This makes you totally invulnerable to fire of any kind, to the extent that you can now swim through lava! Swim forwards when you land in the lava below and surface inside the small cage near entrance to collect Dark Soul 94. Swim back out and make your back up slope steps to left corner. Clamber left again and up to go down stairs. In lava chamber, you can dive for a couple of Cadeaux amongst jars, then follow original route via ledges, to next lava room (with rotating blades in wall).

Drop into lava and collect jarred Cadeaux, then swim through arch to room beyond for more jarred Cadeaux. Climb out and make your way up ledges around outside, avoiding more blades, until you can return to previous room through another arch to collect Dark Soul 95 at top. Now warp back to the main arena (Temple Of Blood).

Turn left and jump via steps to corner to clamber right again.

Follow route through to lava-filled room where you crossed rope for a Govi. Drop into lava and swim left, climbing out to claim Dark Soul 96. Now warp back to the Lavaducts.

LEVEL 20

Location: Various

Time to revisit all those places that were filled with lava. Drop into the lava pit and follow stirrer around to second underwater passage. Climb out into room with metal cabinet. Ignore that one and go through to next room to unlock second cabinet. Climb up and unlock cabinet there to close hatch once more. Run down stairs ahead to collect Dark Soul 97, before opening locked door with lever. Exit and head left up stairs, back to lava pit. Drop into it again and follow stirrer round to first underwater passage. Follow it and climb out. As before, ignore, first cabinet and unlock one in next room. Then climb up and unlock another cabinet. Head up stairs and over to left corner to climb up through ceiling. Drop onto balcony and kill Cyclops (for extra Cadeaux, jump over railing to find them on stacks of boxes, but watch out for Sawblades below). Head along balcony and down slope to find Dark Soul 98. Get a couple of Cadeaux from barrels, then warp to the Temple Of Fire.

Go through two iris doors and past blades and hammers to small room with lava below. Drop in and swim right to a chamber beyond. Jump out and use Baton on altar to teleport to a platform. Jump across for Dark Soul 99 in alcove, then climb pyramid steps back to entrance of temple.

Head back to room where you dropped into lava. This time swim left and head through door. Run along walkway ahead, between hammers, then turn right and jump to ledge. Press switch to activate rope crossing, then drop down and kill two Sisters. Jump back up onto stairs leading up to hammers, then right to ledge where you can leap to grab rope. Cross to other side for a Cadeau, then jump past fire-spitter to opposite ledge for another. Exit via door and follow passage to a dark chamber.

Head left into maze and collect jarred Cadeaux. Press switch near far end, then kill Sisters as you head back towards entrance. Go up ramp and climb across rope to collect a Cadeau from far right. Climb back along rope to drop into middle hole.

Run up stairs and collect Dark Soul 100 at top. Now warp to the Temple Of Life.

Turn left and run through tunnel, onto stone ledge. Turn right and jump to wooden walkway. Cross rope and head through long tunnel and cavern, killing Two-Heads on way, until you reach lava room. Jump in and collect Cadeaux in far corners, then climb out for Dark Soul 101. Head through arch and up slope for another Cadeau. Now warp back to the Temple Of Blood.

Turn right and jump to corner to clamber left, then pull up and go downstairs to room with pillar going up and down. Ride it up, leaping over onto ledge on right. Jump across ledges and this time enter doorway on right. Follow passage round and press switch. This lowers a bridge in area below – drop down and run left across new bridge, then left into a room full of floor tiles. Press switch round to left, then warp back to main arena (Temple Of Blood). Retrace your steps back to doorway above rising pillar room. Follow passage and head left at junction, continuing round to chamber with Coffin Gate. Open it and run inside to grab the Calabash.

You can use this item to blast open the floor tiles you've seen in various locations – try it out on the one next to the pedestal, but make sure you stand back as they make quite a blast! Don't drop down yet though – instead, run out of the Gate and jump left, using your Flambeau to burn the cloth doorway. Run through and follow passage down steps and through another cloth doorway to small room with a tile in the ceiling. Blast it away with Calabash, then jump up to collect Dark Soul 102 before heading back and passing through Coffin Gate again. Drop through hole you made in floor, then turn around and kill Sisters. Drop down and blow open tile to find two Cadeaux before heading back into temple. Go all the way back through to room full of floor tiles and blast them all open. Many contain Cadeaux etc, including one leading up to ledge by the Sisters. One of the tiles contains a passage leading to the area behind the cage where Dark Soul 103 can be collected. Once you've done this, you'll need to go back and blow open the floor tiles that you've passed previously to get some more useful items – here's a list of where they are:

- Temple Of Fire (just inside entrance – drop into the passage

below and push aside all the burning blocks, climbing the slope to find Dark Soul 104 in alcove at top of the temple.)

- Temple Of Prophecy (just inside the entrance – there's Dark Soul 105 waiting underneath it.)

- Bayou Paradis (in graveyard – drop into the crypt below and run to the end to collect lots of Cadeaux and Dark Soul 106. Watch out for the killer Dog guarding it!)

- Marrow Gates (follow main route through gates and round to open area – blow it open to reveal a stash of Cadeaux and goodies.)

- Gardelle County Jail (via the lizard-marked archway in the Cathedral – check the painting on the right-hand side of the room where you enter the prison. Does the design look familiar? Blow it away and follow the path behind to find the tile. Collect the Accumulator there.)

Once you've been through them all, warp back to the Prophecy Chamber and head back through, using Baton on altar to reach area with three Coffin Gates. Blow open the remaining one and enter. Follow passage and collect Cadeau before crossing bridge.

LEVEL 21

Location: Undercity, Asylum

Run forwards through the dark and kill Bladed Ghouls from above before dropping down. Head onwards and through door, killing two Sawblades before climbing ramp. Grab Cadeaux, then go back outside and turn left, venturing into darkness (you might want to use your Flambeau). Jump up and grab ledge above, pulling yourself up and burning flame-marked door on right to collect two Cadeaux before continuing round to restart point.

Kill Sniper there, and another on right ledge. Pull up onto ledge, then turn right to leap onto rock ledge. Climb up to higher rock ledge, then jump onto metal pipe. Jump over to high ledge opposite, where another door waits – grab Cadeaux to either side before entering. Cross through control room, past another door, then make your way round room to kill three Cyclopes. Drop into area in middle and unlock cabinet to activate motor above. Go back up stairs, then left, and use

control panels in corner to climb onto higher ledge. Run along and cross metal cage to opposite side. Climb up to next ledge, then right up two more to leap onto rotating platform. Ride it round to see passage on right: jump in there and follow it.

Drop down at end to enter a room similar to the one you just left. Kill four Cyclopes, then unlock metal cabinet. Use platforms to clamber back up to top of room, collecting Cadeau around central shaft. Ride lower rotating platform around to jump on a ledge for another Cadeau, then upper moving platform to reach an opening opposite where you originally fell down. Follow passage and kill all Cyclopes in control room at end before entering a room with stained-glass ceiling. Kill another Cyclops as you go downstairs, then take passage on left. Kill Cyclops on way down to Dark Soul 107 on a balcony. Drop down and go through door onto a narrow ledge – grab Cadeau on left, then jump over right ramp for another. Head down ramp to another ledge. Grab Cadeaux either side, then drop down (don't bother with rope) to kill three Snipers.

Head through passage on right and kill Snipers in area beyond. Wander over to next passage on far left and run through to re-emerge in area you were in right near the start where you entered the high-up doorway. Climb all the way back up and retrace your steps through first motor room into second, using moving platforms to get back up. This time though, drop onto lower rotating section to enter an opening – follow passage to a junction. Take right-hand path into a room with fast rotating blades. Turn left and drop into control room to kill some Cyclopes. Unlock cabinet to stop blades. Exit through door and head along passage (past a door) to door at the end.

Kill all Snipers and Cyclopes in this cathedral-esque room before climbing staircase to collect another Retractor. Go back down and head through door on right to collect two Cadeaux, then head back up to room where you stopped blades. Drop down and take either exit, killing Sawblade and collecting Dark Soul 108 and a Cadeau from barrels. Use right block to leap into cage to kill another Sawblade. Go through doors, back out to starting area. Run back through two open areas connected by dark passages and use rope to climb up to ledge. Go back up ramp to top door, then jump across to opposite high ledge. Grab two Cadeaux before entering door. Unlock cabinet on left to

unlock door. Run forward (under cage) and unlock another cabinet to open next door. Enter and kill Sniper through next door to reach a high ledge. Use pipe to cross to opposite ledge, shooting Sniper there. Grab Cadeau on left, then run right for another. Jump over to opposite ledge and grab two Cadeaux before entering door.

In chamber beyond, use cage on left to reach level above. Grab Cadeau, then leap up boxes to balcony. Collect two more Cadeaux before going through tunnel. Jump to ledge around pillar, then left to red box with two Cadeaux. Drop to floor to face Trueform which is released. Blow him away (more safely from the ramp) for Dark Soul 109. The Undercity is now cleared, so warp back to the Cathedral Of Pain.

LEVEL 22

Location: Down Street Station, London

Go through sword doorway. Head up stairs to corpse and use Retractor on it to teleport through. Grab Cadeaux, then collect Jack's journal from table. This contains valuable information, including combinations for shutting down the pistons in the Engine Block. Go through door on right. Follow sewer to right until you reach a round pool – the water here is deep and you can dive down to find an underwater passage. Climb out in sewer beyond and grab two Cadeaux from barrels. Run along sewer and climb up to left, following passage to station staircase. Climb to top and go through door. Follow passage to central hall. Head round to left and follow passage to a room.

Clear out Dogs, then follow right tunnel all the way to Eastbound platform, killing more Dogs on way. Enter open train door and head through onto tracks beyond. Run left and go into doorway at end. Follow passage through network of corridors, collecting Cadeaux from alcoves and barrels, to another set of tracks. Move crate to find a hidden passage, then follow it through to a large metal structure. Enter this through gap, dropping into hole. Follow passage below through to large room with a metal floor – don't step on darker plates or you'll drop into a room below full of Dogs!

Cross to passage and follow it through door. Climb up and shoot down at Dogs in pit before dropping down and climbing

up on other side. Dive into water below and swim through to chamber at end. Climb out and pull lever, then run down slope and through door. Shoot Dog, then duck into opening on right to enter a lift. Activate it to reach station above. Head round passage and blow away boxes to right to find another train. You can't get past it, so backtrack past boxes and over to tracks. Follow them round to right to find some planks on right. Blast through them and follow passage to find open train door. Head through to other side and through passage to another round metal structure. Enter it and drop into hole.

Go through doors and swim into underwater passage to enter Jack's lair. Kill Dogs and jump up onto sloped block on left before clambering right along narrow ledge and pulling up. Grab a Cadeau from barrels, then leap over to pipe, then to grab another narrow ledge behind it. Clamber right and leap backwards onto ledge behind you. Follow tunnel and go down steps, killing Dogs at bottom. Head left through arch and blast open door. Go through maze of passages to far right and blast away planks to find another lift – take it up and exit through back door.

Run forwards and into a small chamber where there's a lever for you to pull. Kill the Dog that appears behind you, then run back and enter right doorway. Drop onto bridge and cross it to climb into opening opposite. Head through door at end. Follow network of doors through rooms, eventually collecting an Accumulator from last one. Leave and climb stairs, following passage at top to end.

Ignore door and head right into room full of rotating spikes. Drop into water and swim through underwater passage on left to reach a lever that shuts off spikes. Now swim back and through opening on left on surface into another pool room. Dive down and collect two Cadeaux, then swim through narrow tunnel into another room. Collect more Cadeaux here, then swim up and surface. Swim through passage and climb out. Follow passage through door to meet Jack The Ripper.

Watch out for him crawling along the ceiling and dropping behind you to stab you in the back, shouting, "Die, you slag!" The best way to deal with him is to keep moving backwards, strafing with the Shadowgun. Once he's dead, collect the Prism and Dark Soul 110, then explore the surrounding chambers for

health and ammo. To find the exit, head through passage opposite door in Jack's room to another watery room. Head through next passage to a pillars room. Head round to left and along passage to reach Soul Gate. Use Prism to open it, then step through to the Engine Block.

LEVEL 23

Location: Engine Block, Asylum

Run forwards along walkway and down ramp, killing Snipers at bottom. Take left exit and unlock cabinet there to open a door near ramp you just came down. Run back up and jump through it, then follow passage and drop down at end. Head left, shooting Cyclops and unlocking cabinet to open door leading back to Soul Gate. Instead, turn around and run to end, dropping onto hot coals by pipe. Follow passage round to end. Climb out and kill two Cyclopes before entering passage above control panel. Follow it to a room and run along walkway to kill Cyclops. Then drop down and hit lever, releasing a Trueform. Kill him to collect Dark Soul 111, then exit through door.

Follow passage into a room with an inactive Trueform – approach cage and then run away as he jumps out. Kill him for Dark Soul 112, then run through doorway on other side of room. Kill two Cyclopes, and Sniper on high ledge, then throw lever behind cage to free Trueform. Get rid of him and collect Dark Soul 113, then jump on top of cage and cross to metal pipe ahead. Jump between ledges around outside of the room to reach high walkway, then follow it right to a passage. Follow this to a metal cage room: head left into control room, killing two Cyclopes. Climb ramp, killing another Cyclops, to enter Piston Room 2. Take a look at Jack's Journal to find the right combination: 1, 2, 4. Use Engineer's Key three times on first panel, four times on second, and once on third, to shut down the piston. Warp back to Gardelle County Jail. Head round passage to Soul Gate and into Engine Block. Make your way back to Piston Room 4 and use combination 2, 4, 5 to shut that one down too.

LEVEL 24

Location: Mordant Street, Queens, New York

For the last of the Five, you'll need another Retractor. So warp back to Cageways. Exiting the train, head round to right, by wide sliding door. Grab crevice on left wall and clamber along it until you can pull up. Head through doors to a room with some pipes. Collect three Cadeaux from barrels, then jump up to balcony and kill Butcher and Sniper. Head downstairs and kill another Sniper. Grab Cadeau, then unlock cabinet on ledge. Turn around and run across the narrow ledge to opposite balcony, killing Butcher and Sniper. Go into passage and down stairs, killing Sniper at bottom. Jump into cage for Dark Soul 114. (If you want, unlock cabinet – the door leads back to the area with the moving cages.) Head back up stairs and over to ledge with cabinet. Go left and unlock another cabinet to open door. Follow passage to a cathedral-esque room. Kill Snipers, then head up staircase to get final Retractor.

You're also recommended to get Violator gun, so warp to the Playrooms. Drop off bridge and kill butchers. While you're here, head through passage and enter door. Shoot Cyclopes and head right down ramp to find Dark Soul 115. Return to room with bridge and drop into water. Blast mound and swim through underwater passage, following main route (ignoring detours) to room with Violator. Use your three Accumulators to unlock cabinet to get it.

Now warp to the Cathedral Of Pain and go through spike archway. Climb stairs to top and use your last Retractor on corpse to teleport through to New York, home of the Home Improvement Killer.

Run to left and through passage, then leap up to broken floorboards above and through doorway on right. Turn right and then left, heading down passage, using Flambeau to light the way. Through door at end you'll meet the Home Improvement Killer – a psychopath with a pair of bolt guns. Thankfully, you don't have to fight him yet, so let him disappear, then explore the room. There's a lift at the side which is locked (so you'll have to open it) and a couple of other exits including a broken staircase.

Go through the door to the left of where you entered and follow the passage round. Blow planks away from door at end and run inside, then right to collect flashlight from table – use this from now on as it not only gives you better light than the

Flambeau, but also saves precious Fire Skulls. Return along passage to room with lift. Blast through boxes to enter passage on left. Follow corridor and explore interconnected rooms at its end for Cadeaux. In beige panelled room you'll find a gate with a padlock – shoot it to go through. Shoot Dog and enter right lean-to for a Cadeau. Carry on around to shoot another Dog. Push block to enter, then blast planks.

Grab Cadeau on right and go down passage to find more rooms. Climb up through broken ceiling in kitchen (chequered floor) to reach room above. Go through next set of rooms, blasting any boxes in your way, then go past room full of skin-covered chairs and through door at end of passage. Go through doorway on right, and leap over collapsing floor. Move block aside in next room and continue on, past skin-covered birdbox, into another corridor. Head left for a Cadeau, then turn around and follow passage round to some derelict rooms. Grab a Cadeau on right, then head round to left to a beige corridor. Follow it and blast boxes to enter a red corridor. Grab Cadeau on left, then turn around and follow corridor. Enter left doorway to grab more Cadeaux on balcony above lift room (careful not to fall off). Return to the corridor and follow it left, past the boarded entrance, to collect two more Cadeaux.

Return to the planks and blast them away, then follow the corridor. In the rooms at end is another boarded entrance, behind which lies a switch – throw it to turn on the power in the house, activating the lift. Grab Cadeaux, then return to balcony and drop down to lift room. Take lift up to top level. Exit and head left to collect a Cadeau, then return round to right, past lift. Jump over gap for another Cadeau before going through door. (If you fall down, just press the button on the lift to call it back down.)

Through door, take corridor to left. Continue through rooms, jumping hole in floor to reach brown corridor. Follow it around, blasting boxes, to another set of rooms where you'll find the final Accumulator in the red glowing room. Continue through rooms to a passage with Blood Fall on left. Climb it and follow long winding path through corridors and rooms to attic.

The Home Improvement Killer is waiting for you here, so arm your Violator (and another fast-firing weapon) and blast him like crazy. Once he kneels down and stops firing, use the

Shadowgun to finish him off. Collect the Prism and Dark Soul 116, then exit room to right of where you entered. Use Prism to open Soul Gate, then step on through to re-enter the Engine Block.

LEVEL 25

Location: Engine Block, Asylum

Go forwards and run up ramp, killing Cyclopes and Snipers on either side. Head right and onto third level, pulling lever there to open two doorways at far end of room before running to very top of ramps. Cross rope and drop to platform at end, then take right-hand opening, following passage into room beyond. Drop onto ramp below and kill Cyclops, then unlock cabinet to open cages. Don't be fooled by the Trueform still locked up – it'll break loose when you drop down to take on the other one, so watch out! Get rid of them both and collect Dark Souls 117 and 118. Follow wide passage round, collecting goodies from cages. Enter door.

Go through control room and over caged bridge, shooting a Sniper. Jump up into opening on right and follow passage. Go through door opposite when you reach room at the end, entering Piston Room 3. Shut down pistons with combination 3, 1, 2 by using your Engineer's Key on the panels (leave the left one as it is).

With all the pistons off-line, you can make it across to the end of the Engine Block. However, first warp back to the Playrooms and make your way to the Violator room for more ammo. (If you have managed to collect all 120 Dark Souls, warp to Marrow Gates for the second Violator – see Secret Violator box for details.)

Warp back to Engine Block and jump past all stopped pistons to far end of room to spot Luke again. Chase him up ramp and through corridor, up slope into Trueform cage room. Don't worry about them – they won't get loose. Run through maze of passages to central chamber where Luke waits for you... or is it? No, of course it's not – it's Legion in disguise!

When the battle starts, keep circling Legion and blasting away with the Violator and he'll soon go down. Trouble is, he doesn't want to stay down... in fact, he transforms himself into a

massive beast intent on ripping you to pieces! This time he's MUCH tougher, firing out a multitude of homing blasts that take off major amounts of your health. To make things even worse, you should know that you only get one chance at beating him – if he kills you, Legion claims the Dark Souls and destroys humanity! Oh, the horror!

You're going to need a whole lot of fire-power to take on Legion – make sure your Violator is fully loaded and you've got as many Fire Skulls as you can carry, because you'll have to use your Ensigne if you run out of ammo. Run in circles, trying to keep Legion in front of you, then run underneath him while firing the Violator constantly to hit him. The main thing to remember is to only fire when he's in front of you – you'll only waste ammo if he's not. Keep moving to outrun the soul blasts he shoots out and switch to the Shadowgun again when the Violator is running low on bullets. Only use fully charged shots to hit Legion, as anything else will only do minimal damage. Eventually you'll wear him down enough for you to finish him off – hit him with a major Shadowgun blast and you'll have defeated Legion and his minions for good!

SECRET VIOLATOR

If you manage to collect all 120 Dark Souls, go back to Marrow Gates and climb the first Blood Fall on the left. With your Shadow Level full, you can now open the Coffin Gate for an extra Violator and ammo – which comes in mighty useful against Legion.
